The only place in this City where you CAN BUY A REALLY SUPERIOR

PIANO FORTE!

IS AT

175 East Water Street.

A LARGE ASSORTMENT OF CHICKERING & SONS', BOARDMAN & GRAY'S, and other celebrated Pianos for sale at Manufacturers prices, which range from

$235 to $800

according to Size, Style and Finish.

The deservedly great reputation of these instruments has induced unprincipled men to counterfeit them, and many of their vile imitations are being offered for sale throughout the West.

The subscriber, to guard the public against imposition would state that he is the only Agent in this City for Chickering & Son's and Boardman & Gray's Pianos and the only person who has the *genuine article* for sale.

The certificates of Agency can be seen at his Warerooms.

☞ Old Pianos taken in part payment for new ones, and a liberal price allowed.

PIANOS TO LET.

Musical Instruments of every description.

Prince & Co's., Melodeons.

The best selected stock of Sheet Music, Musical Works &c., in the West, to which additions are continually being made.

TRANSPORTATION.

AMERICAN

Transportation Company.

CAPITAL, $300,000.

THIS COMPANY HAVING COMPLETED ITS ARrangements for a Transportation business to and from New York, Boston, Albany and Chicago and intermediate places, and believing that they can do the business cheaper, quicker and better than any other company engaged in the business owning all the propeller and canal boats to do it, solicit the patronage of the public. Goods will be shipped separately at New York on each line of propellers running from Buffalo, there by ensuring greater dispatch, avoiding delays at Warehouses, and damages in handling and storing.

They have purchased all the steam propellers and canal crafts heretofore owned by the following lines and their former owners have become stock holders in this Company:—

THE MERCHANTS' TRANSPORTATION COMPANY. THE CLINTON LINE. THE NEW YORK AND CINCINNATI LINE. THE AMERICAN TRANSPORTATION COMPANY. THE WEST ENTERPRISE LINE. THE NEW YORK AND WESTERN LINE. THE WESTERN LAKE BOAT LINE. THE TROY AND ERIE LINE.

DETROIT AND BUFFALO.

North Shore Line of Steamboats,

Consisting of the magnificent Steamers

WESTERN WORLD, PLYMOUTH ROCK, AND BUCKEYE STATE.

THE DAYS OF SAILING FOR THIS LINE, TO commence immediately upon the opening of navigation at Buffalo, are as follows:

WESTERN WORLD, Commander, L. H. COTTON,
Will leave Buffalo on Monday and Thursday.
Will leave Detroit on Wednesday and Saturday.

PLYMOUTH ROCK, Commander, J. H. BARKER,
Will leave Buffalo Tuesday and Friday.
Will leave Detroit on Monday and Thursday.

BUCKEYE STATE, Commander, S. C. ANDREWS.
Will leave Buffalo Wednesday and Saturday.
Will leave Detroit Tuesday and Friday.

These splendid Steamers having, during the past season, been entirely remodeled in their internal arrangements, are now believed to surpass, in accommodation, comfort and luxury, anything ever offered to the traveling public. They are officered by gentlemen of ability and experience, and it is confidently expected that they will attain a popularity during the approaching season never before reached on these Lakes.

For further information concerning this Line, apply at the office of the North Shore Line at the Depot of the Michigan Central Railroad Company.

C. B. SWAIN, Agent.

☞ The navigation to Buffalo being open, these Steamers are now running, leaving Detroit daily as advertised above.

FROM

Skillin, Visscher, Owen & Schell,

GENERAL NEWSPAPER ADVERTISING HOUSE,

No 346 Broadway, New York

Pure Unadulterated BRANDIES.

DIRECT FROM THE GROWERS

ONE OF THE PRINCIPAL AND GREAT CAUSES of the high price of brandy in this market, is the indirect source from which it is derived Nine tenths of that imported is received from mercantile houses in Cognac, who buy of the farmers in that district and ship it to the United States, at much advanced prices, and frequently in an adulterated state In view of these facts and for the purpose of securing a fair price for their product a union of brandy growers in France has been accomplished, with the view of shipment to the United States

The name of the consolidation is the Central Society of Vineyard Proprietors of Cognac, under the general management of A Redoux and the direction of a President, Vice President, and a Committee of Inspection of eight members The society now numbers five hundred vineyard proprietors, amongst them some of the most influential noblemen in the neighborhood of Cognac, who contribute, under certain by-laws, the entire growth of their vineyards to the general fund of the society the present capital of which is three million francs The advantages to be obtained from this combination are so apparent as to render unnecessary any further comments on the subject, nevertheless it may be worthy of observation that few features in this society possess more striking claim to public attention than the fusion of interest effected between buyer and seller Since all are shareholders, it necessarily becomes the interest of each individual to contribute by every means in his power to uphold the reputation which the society is endeavoring to earn, for shipment of the best qualities of brandies For this purpose a clause introduced in the statutes (article 40) renders it imperative that shareholders shall supply the society with the very best *Cognac* brandies, otherwise they incur the liability of an entire forfeiture of their shares

The undersigned, sole agents in the United States for the Central Society of Vineyard Proprietors of Cognac would solicit the attention of merchants hotel keepers grocers and others to the vintages now on hand, confident that they will compare more than favorably with any article now in the market, and at prices far below the standard of even ordinary Cognacs

Highly Important to Farmers.

The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,

Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies

All losses promptly paid at the office as soon as proof is made thereof.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, only your own of the same class, and all will be on an equal footing

Experience has shown that two thirds if not three fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property In this Company all such property is rejected POSITIVELY BY LETTERS THEM ALONE

Farmers, look to your own interest, and insure in a Farmers' Company

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance

A meeting of the Board of Trade was called last evening in reference to the application for the U. S. Government dredg, to clear out the channel of the river. There being but few members present, a committee consisting of Messrs. S. B. Grant, L. H. Kellogg and Rufus King, was appointed to wait upon the Common Council and solicit their action in the premises, and the Board adjourned to meet again this evening at half past seven o'clock. The adjourned meeting is for the special purpose of considering and disposing of the subject of the Straight Cut. As this interests every forwarder, produce-dealer, vessel owner, merchant, and insurance agent in our city, and is a matter of the first importance to our commercial prosperity, we hope to see *to-night* a full and punctual attendance of the members of the Board of Trade.

Virginia Election.

There is no longer reason to doubt that the Virginia Election has resulted disastrously to the Know Nothings and triumphantly for Mr. Wise and his supporters. This will be a sore disappointment to the K. N's., while it is a most acceptable "crumb of comfort" to the Pierce Administration. We think, too, that the fierce contest in Virginia will prove the *crisis* in the K. N. disorder, and that *we shall soon see* this political epidemic abate as rapidly as it spread, and speedily vanish altogether.

Milwaukee & Mississippi Railroad.

The receipts upon this road are going up beyond all *precedent*, and all estimates thus far made. Up to and including the 25th, the receipts for May were as follows:

Passengers,	$16,534 32
Freight,	31,895 94
Total,	$47,430 26

The following shows the receipts for the six days ending with the 25th:

19th,	$2513 44
21st,	3034 21
22d,	2613 33
23d,	2988 62
24th,	3270 60
25th,	3010 39
Total,	$17,430 59

With the receipts from mail and express, and from the Watertown road, the total for May will be about $65,000. The receipts for May, 1854, were $41,751 31.

Explosion on Lake Winnebago.—We learn from Mr. C. D. Robinson, of the Green Bay *Advocate*, who arrived in town last evening, that the steamer *Sampson*, plying between Fond du Lac and Calumet, while lying at the latter place, *exploded a boiler* on Friday last, killing the Engineer and the Captain's son, and injuring one or two other persons severely. The boat was badly damaged.

The Kansas-Nebraska Outrage.

The *News* of Saturday, commenting upon an article in the Washington *Union*, on the subject of the Kansas trouble, which counsels "forbearance" after having helped to open the door to pro-slavery aggression and violence, thus speaks of that iniquitous measure:

> That the Kansas and Nebraska organization act was designed to avoid the very dangers that the present portents threaten, we have never doubted. *Although we have not been able to appreciate it as a measure of pacification, and have from the first regarded it with forebodings of evil*, yet we have hoped for the best, and have been willing to struggle for the ends anticipated by those who have considered it the wisest solution of the slavery problem, which the apparently conflicting interests and prejudices of the country would admit of.

This is rather a novel position for the *News*, which has heretofore been regarded as a staunch advocate of the Kansas-Nebraska bill. It is only, however, the utterance of that "sober second thought" which is common now to almost the entire North, without distinction of party.—Even the most zealous adherents of the Federal Administration, and the blindest followers of Douglas & Co., now see and admit that the passage of the Kansas-Nebraska bill was an intolerable wrong to the North, an outrage upon Justice and an indignity to Freedom, which "returns to plague the inventors."

Impressive Ceremony.—On the last day of the session of the Massachusetts Legislature, Mr. Pierce, of Essex, in behalf of many of the members presented an elegant gold-headed ebony cane to the Hon. H. C. Brown of Tolland—the Democratic party in the House—as a token of their esteem for him personally, and of their admiration for the manner in which he had discharged the difficult and responsible task of representing the entire Democracy of the Bay State.

The Spirit of the "Squatter Sovereigns" —That infamous scoundrel, Stringfellow, who is among the leaders in the late outrages committed in Kansas, and who now edits a paper called "the *Squatter Sovereign*," uses the following language in a late number, in relation to the death of Clark by the hands of McCrea, who shot the former in self-defence:

> For every honest man that is slain, let a score of abolitionists suffer. We call for a settlement of this affair—let us make examples of such outlaws and their sympathisers, until our fair Territory is ridden of such curses—until honest men can walk the streets of our towns, without the fear of being attacked by Northern cut-throats and hired assassins; until our homes and firesides can be made secure from the torch of the incendiary, and our slaves be permitted to remain with us in quietude and contentment. As long as one abolitionist remains in the territory, such occurrences will be numerous, both here and in Missouri. Let us begin to purge ourselves of all Abolition emissaries who occupy our dominion, and give distinct notice that all who do not leave immediately for the East, *will leave for eternity!*

St. Clair Flats.—The Chatham (C. W.) *Planet* publishes the following extract from a letter written by Edwin Larwill, Esq., member of the Provincial Parliament, dated Quebec, May 16th:

> "I have got £1,000 for the improvements contemplated on the St. Clair Flats. But it would appear the Government do not expect the money will be expended this year. I shall know more about it by and by. I have not time to say more."

Lake Shore Rail Road—Extension Northwardly.—Our contemporaries north of us, along the Lake Shore, take a lively interest in the success of the Rail Road just opened, between this city and Chicago, and already anticipate its extension Northwardly. The Evergreen City *Times*, in noticing the opening of the road, says:

> We prophesy, that before the expiration of two years from last Saturday, the opening ceremonies of the road to Sheboygan will have taken place. Our citizens are ready, on receiving from the company a guaranty of exemption from the payment of either interest or principal, to vote a loan of the City credit to the Company, to the amount of $200,000.

☞ James Russell Lowell, the poet, has engaged his passage in the packet ship St. Nicholas which sails from New York, on the 1st of June. He will remain abroad a year to fit himself more perfectly for the duties of his Professorship. His predecessor, Longfellow, went abroad for the same purpose when first appointed. Mr. Lowell will proceed through France to Germany and, for a time at least, will reside in Dresden, where his sister, Mrs. Putnam, the writer on Hungary, is now living. A portion of his year abroad is to be spent in Spain.

Coming into Wisconsin Head-foremost.—Bayard Taylor, in a recent letter to the N. Y. *Tribune*, states that he first entered Wisconsin *on his head*, having been pitched head-foremost from his buggy just as he reached the State line near Beloit.

The Largest Ship in the World.

The public is probably not aware that the largest ship in the world is in the course of construction for the United States Navy, by Mr. Steers, in the Brooklyn Navy Yard. She is the steam frigate Niagara. "She is," says the *Tribune*, "truly the most graceful, satisfying work of art we have ever beheld, and, looking upon the faultless curves of her timbers, and the fascinating sweep of her enormous hull, one feels as every artistic and thoughtful mind must sometimes have done when gazing upon a sleeping infant, or a bank of cumulous clouds in a summer sky." The *Tribune* says further:

> The Niagara is we learn the largest of the five screw steam frigates which are now in process of construction for the Navy, and as we have stated, the largest ship in the world; and we have no doubt that she will be as preeminent in beauty and in all the qualities which a ship should possess as she will be in size.
>
> The actual dimensions of this magnificent vessel are as follows: Tonnage, 5,200; extreme length on deck, 345 feet; load line, 321 feet, extreme breadth, 55 feet, depth of hold 31 feet there decks besides the orlop. The armament will consist of 12 eleven inch pivot guns to carry 170 lb shot and a charge of 15 lbs. of powder. She is to be full ship-rigged, her mainmast being 111 feet long and 3 feet 4 inches diameter the main yard will be 55 feet and the mizzen spanker boom 67 feet.
>
> The Niagara is constructed wholly of live oak. Congress appropriated one million of dollars for her construction, but her cost it is thought will not be over $900,000.

☞ Irving's Life of Washington.—The first edition of this long expected and important work is to be published in three volumes, octavo, elegantly printed with large type, on fine paper and containing three or more portraits, viz:—one by Peale, at the age of forty; one by Wertmuller, at the age of 62, (an original and interesting picture, now first engraved) and the full length statue by Houdon—also maps and plans. This fine edition will be sold only to subscribers; and agents are now engaged, or being engaged in every part of the country. It has been estimated that at least 150,000 copies of this edition will be called for, for surely the first full and satisfactory biography of the "Father of our Country," by the foremost American author, should be owned by every American family that owns any book besides their Bible. The whole of the manuscript is complete, and the first volume will be delivered to subscribers very soon—the other two will follow at short intervals.—It is published by G. P. Putnam & Co., of New York.

How the Empress Eugenie Wears her Bonnet.—The London Morning Post was very great during the late Imperial visit upon matters of *dress*; and is regarded as high authority upon all questions connected with that important subject. This journal says:

> "In regard to the much mooted question as to whether a bonnet should be worn on the head or off it, it may not be amiss to take advantage of the actual presence of her Imperial Majesty, who is said to have introduced this popular feminine eccentricity to place on record that, although the bonnet of the Empress Eugenie displays fully her face and hair, it does not convey to the beholder the idea of its being likely to fall from the head behind, but rather seems to cling to and support the hair in that position. This gives a lightness and grace of carriage to the head totally distinct from that boldness and barefacedness which has characterized the adoption of the French Imperial fashion."

Running the Blockade.—The London *Standard* has the following in relation to the American vessel which is said to have reached one of Russian ports:

> A very extraordinary circumstance, reported from a quarter which precludes any doubt as to the truth of the statement, reaches us by letter from St. Petersburg. It appears that a fine American frigate-built ship recently arrived at a port in the Baltic.
>
> It was stated that the vessel had on board 500 bales of cotton, but the correspondent of our informant visited the ship and found, in addition to the above, she had fifty thousand rifles and four thousand revolvers. The Russians laugh at our cruisers, and naturally ask, if John Bull has been asleep to have allowed so valuable a cargo to escape. The Messrs. C——, merchants of Boston, were passengers, and it is supposed acted as supercargoes. We have not been able to ascertain if the vessel left America this season and has cut her way through the ice before our Flying Squadron could come up with her, or if she reached one of the lower ports of the Baltic last year, and lay quiet till the spring. We say no more than:—"What are the Consuls in the United States about, to have permitted such a cargo to leave without apprising our government of the fact."

Large Cargo of Cotton.—The ship *Ellen Austin*, of 1,698 tons burden, which left Savannah for Liverpool on the 18th inst., had a cargo of 5,555 bales of cotton, weighing 2,397,817 pounds, and valued at $223,279 19. This is the largest cargo of cotton in one vessel ever shipped from any Atlantic port.

William H. Seward.—The Providence *Journal* makes the following very happy and truthful reference to Mr Seward:

> We have known people—over righteous people—who kept a devil, which they charged with the burden of all their own sins. The credit of their good deeds they took to themselves; but whenever they were caught in anything inconsistent with their large professions of virtue, in came the devil who had tempted them to sin. Mr. Seward serves the politicians of New York in a similar useful capacity. Whoever does anything wrong, whoever finds it necessary to excuse or explain an act that admits of neither, has only to say Seward, and the thing is ended.
>
> Few things are more admirable, hardly any thing is more difficult than the serene contempt with which a good man looks down upon falsehood and slander. We have long watched the course of William H. Seward. There has not been a man in public life, in our day, whose record stands fairer. Without the foolish pride of invariable consistency which is only another name for stolid obstinacy, Mr. Seward has remained faithful to his early opinions, and has never modified them to revenge a wrong, or to take advantage of the popular current. In many things we do not agree with him, but in every thing we award to him the power of great ability, of conscientious fidelity, and of indifference of personal consequences, when placed against the general good. His re-election was a great triumph to him and a greater triumph to the country. In the Senate he stands without a superior, and there is hardly a man in the public service whose loss would be so severely felt. He can well afford to smile at the detraction, which when it was far more offensive and dangerous, he always scorned to notice.

"Sam" in Egypt.

We were talking the other day with a gentleman who recently traveled through Southern Illinois, who confessed to have been cured of some slight Know Nothing proclivities by his observations in that section. Some of the towns are almost exclusively settled by Germans, while in others the native-born constitute nearly the entire population. The latter are mostly Kentuckians and Virginians, or their descendants; a rude, rough, indolent set of beings, who have lived in that land flowing with hog and hominy so long that every spark of enterprise is extinct among them. Scarcely any exertion is necessary to raise sufficient corn to grow their pork and make their hoe-cake. They live in dirty little hovels. School houses are like angel's visits.

Sun-burnt, tow-headed childhood vegetates into ignorant, listless manhood; and life from generation to generation is a dull and profitless round, where hogs devour rattlesnakes, and men devour hogs. This picture may be somewhat exaggerated, but is nevertheless true, in all essential details, of a large class of the inhabitants of this modern Egypt. He was struck with the different appearance of the German settlements; by the superior thrift, intelligence and enterprise exhibited among them. Their houses were better, their farms better tilled, and, in almost every respect, they seemed to surpass their Sucker neighbors.

On further inquiry he found that the Germans were nearly all anti-slavery in sentiment, while in the Yankee or Sucker districts, the doctrine of "America for Americans" in the modern "Sam" sense was generally prevalent, allied to violent pro-slavery and "popular sovereignty" principles of the Stringfellow stamp. He came away with the impression that the Germans were full as well qualified for taking some part in the elections and for having some voice in the government as their native born America neighbors.—[Madison Journal.

Man Drowned.—This morning just after the arrival of the *Peytona*, a man named Jacob Sinner, in passing from the steamer *Eureka* to a scow-boat along side, fell into the river, between the two boats, and was drowned before assistance could be rendered him. His body was recovered in ten or fifteen minutes, but all efforts to restore him to life proved ineffectual. He was a German—a resident of this city, and has left a wife and two children.—[Oshkosh Courier.

Gone at Last.—The Buffalo *Commercial* of Friday last vouches for the fact that the ice, which has blockaded Buffalo harbor so perseveringly this Spring, has at length disappeared, and gone down Niagara river. It is a comfort to think that, no matter which way the wind blows, it cannot get *up* stream, and therefore it may be set down as gone for the season.

Minnesota.—The Republicans of Minnesota Territory have called a Delegate Convention at St. Paul on the 28th of July, to nominate a candidate for Delegate in Congress, and to take the necessary steps for securing a thorough organization of their party. Minnesota, like its near neighbors, Iowa and Wisconsin, is bound to be Republican.

Low Water in the Mississippi.—Our St. Paul and Galena exchanges begin to complain of the low water in the Mississippi as impeding navigation, and represent the crops as suffering greatly for the want of rain.

The Administration Upon Senator Taylor.

The Madison *Argus* and *Democrat*, always a most virulent partizan print, particularly in the fulfillment of its office as the organ of "Barstow and the balance," seems to have become, if possible, more acrimonious than ever, under its new *regime*. After spitting its venom with cat like malignity right and left for some weeks, in its insane endeavors to fasten upon the Republican members of the last Legislature, the charge of bankrupting the Treasury, and making necessary the state tax of $350,000 to liquidate the state indebtedness already existing, and defray the current expenditures of the present fiscal year, and being unable to accomplish this Herculean task,—it now seeks to console itself over its failure by showing its teeth with a spiteful snarl by way of admonition to Senator Taylor of this city.

Because he literally complied with the long continued and clamorous demands of Gov. Barstow and his supporters, for a searching and thorough investigation into the administration of the financial affairs of the State, instituted such an investigation, and reported a state of facts which served to startle the administration braggarts from their propriety, the *Argus and Democrat* flippantly denominates him "the Mr. Hiss of the late Wisconsin Legislature," characterizes his arguments as "the tortuous windings of a pettifogger," and sneers at his eloquence as "breathing the dignity of the pot-house!"

Such language applied to Senator Taylor, from whatever source it may chance to come, and especially when emanating from the *Argus and Democrat*, will have no other effect than to excite for its author, the scorn and contempt of those who know him. His reputation is not confined within the limits of his Senatorial District, but he is widely known through the state as a courteous and dignified gentleman, a deeply read, studious, able, and candid lawyer—one who has the ability and the industry to investigate all knotty or tangled matters, not even excepting the legerdemain performances of the Barstow administration with the state finances.

His laying bare their iniquities was an excoriation they did not anticipate, and the sting of which they cannot forget, and hence the rancorous malignity with which they unloose upon him this their "dog of war."—[Sheboygan Times.

Scene in the Caucasus.

DELIVERY OF SCHAMYL'S SON TO HIS FATHER BY THE RUSSIANS.

The *Caucasus*, a newspaper published at Tiflis, contains a communication respecting a recent exchange of prisoners between the Russians and the chief of the Circassians. On this occasion Schamyl received back one of his sons, who, having been taken away in his boyhood, had been educated in Russia, and even served in the army. The *Caucasus* says: Last summer the Princess Tchattchavadse and the Princess Orbelian, with her children, were captured by some of Schamyl's bands. Their captivity lasted eight months, notwithstanding the utmost efforts of the government and their relatives. They at length succeeded, however, in inducing Schamyl to accept ransom from them to the amount of 40,000 silver roubles, together with the surrender of his son.

On the 22d of March both parties met for effecting this exchange, Schamyl, who, to the last moment, was exceedingly distrustful, being accompanied by a body of six or seven thousand men, who brought with them some field pieces. As soon as he had taken up his position on the right of the frontier river, the Mitschik, and the Russian on the left, he sent his other son, Kasi Muhammed, with thirty Murids as an escort to the carriage containing the prisoners, to meet the Russians. On the Russian side a party of riflemen crossed the river, accompanied by Major General Caron Nikola Prince Tchattchavadse, and Jamal Eddin, Schamyl's son that was to be exchanged. They were followed by a carriage containing the stipulated sum. When Jamal Eddin approached the ford of the river, thousands of voices repeated, in a monotonous chaunt, the words Estephir Alla, which are a thanksgiven when any enterprise has come to a prosperous issue. While the son was crossing the river, a dress was brought to him as a present from his father, which he immediately put on.

As soon as he had assumed his new attire, being accompanied by the Russian officers and his brother, Kasi Muhammed, he climbed the mountain where his father was sitting surrounded by the Murids, while a mountaineer held over the chieftain's head a dark parasol. Schamyl is a remarkably handsome man, 47 years of age, with a very expressive face, and prepossessing manners. When his son approached him he stretched out his hand for him to kiss, then embraced him and wept. After that he bowed in a friendly manner to the Russian officers, and requested them to thank Baron Nicolai for the kindness with which he had treated his son. After this he added, as if replying to his own thoughts, "I believe now in the honor to the Russians." The story runs that he was not a little afraid lest the Russians, after the exchange was over, should surprise him and carry back again the money, perhaps his son into the bargain. The report concludes with the remark that this interview is memorable, inasmuch as no Russian since the year 1839 had ever seen Schamyl.

Large Verdict.—On Friday the Jury in the case of Lewis H. Yarwood vs. Galena & Chicago Union Railroad Co., tried at the Kane Circuit before Judge I. G. Wilson, returned a verdict for the plaintiff of $2,500. The plaintiff was a passenger on the train of the defendants the cars ran off the track—a snake head the cause—and the plaintiff jumped from the cars and was injured in falling. On the first trial the jury disagreed. On the second, a verdict was rendered for the plaintiff for $1000 damages. This judgment was reversed in the Supreme Court upon the ground that it was a part of the contract that the plaintiff should ride in the baggage car, that he left the car in violation of his contract, and thus sustained the injury. The case was remanded for another trial, and the jury decided that there was no such contract, and rendered the above verdict for the plaintiff. The case will be appealed to the Supreme Court again by the Company.—[Chicago Democrat

Green Bay for a Summer Resort.—We presume that there is not a place in the West which equals in point of healthiness, economy of living, and pleasantness, our town as a summer resort. We have good hotel accommodations, and especially one house, the *Astor*, is adapted for families; board can be had at less prices than at almost any other lake port, game on land and in water is plenty—the vicinity abounds in fine drives—and no place in the United States has so good a reputation for health. We expect to see flocks of people from cholera raged districts coming here this summer.—[Green Bay Advocate.

Settlement of the Eastern Question.—A Washington correspondent of the Buffalo Republic has discovered the *secret* that the war in Europe is to be left to the arbitrament of the three Ex-presidents, Van Buren, Tyler and Fillmore.

And that duty performed, Mr. Fillmore, it is understood, will proceed to the Installation of "Know Nothing Lodges," upon the Continent, having received, from "Macomber, Jewett, &c" a Dispensation for that purpose.—[Albany Evening Journal.

Drinking from the Original Package.—The first case of carrying out the provisions of the Prohibitory Law, came up yesterday afternoon: A workman near the foot of Dey street, with the aid of a gimlet, took a drug from the original package, but finding it rather stronger than he had been accustomed to drink, he attempted to dilute it by falling into the dock, from which he was taken by the bystanders, and honored with a ride in a coal cart to his lodgings, in a celebrated city institution, between Centre and Elm streets.—[N. Y. Mirror.

The Second Shipment of Wheat from this port this season, was made by our townsman W W King, upon the Schr. *Maple Leaf*, Capt. Earle. She cleared for Buffalo, on Saturday last, with a cargo of 13,000 bushels. There are about 120,000 bushels more in store here for shipment.—[Sheboygan Times.

Large Train.—The 12 M. Emigrant train which left on the Central Road yesterday, comprised fourteen passenger cars with over 800 emigrants, mostly Germans, bound for the far west.—[Albany Register, May 25.

☞ The steamer *Key Stone State*, on her last trip down, shipped 2000 bushels of wheat at this port for Concord, New Hampshire, *via* Collingwood and the Simcoe and Huron Railroad.—[Sheboygan Times, May 26.

The Crops and the Fruit in Ohio.—An intelligent and observed correspondent of ours has, during the past week, traveled through several counties in Southern Ohio, and was at special pains to observe and inquire about the crops and the fruit. In Clermont, Brown, Highland and Adams counties, the farmers and the towns people rejoice in the liveliest assurances of abundance. The fruit trees are all, indeed, overladen, and the wheat and corn and potatoes are coming on as finely as the most unselfish philanthropists could wish. Not quite so much wheat was sown as in past years, but every acre in which corn or potatoes could be planted, has been improved.—[Cincinnati Commercial, 22d.

Milwaukee Opera Troupe.—The Milwaukee Musical Association, said to be equal to any company of the kind in the United States, have lately been delighting the people of their city with the opera "*Der Freischutz*." The papers speak of it in the most enthusiastic terms.

Though the society is made up of amateurs, we hope the members thereof may consent to visit Chicago, and treat their *Sucker* neighbors to the entertainment that has turned the heads of our Milwaukee neighbors. Metropolitan Hall affords ample accommodation for twelve hundred people, and we think we give assurance that it would be filled at any moderate price. Aside from the gratification afforded by the music, such a visit would do much toward establishing the *entente cordiale* between the two cities. Will the Philharmonic Society of Chicago allow us to suggest that their invitation would bring about the desirable result?—[Chicago Tribune of yesterday.

A Bold Theft.—A bold larceny was committed in this city, last Sunday, by a young man 17 or 18 years of age, by the name of John———, under the following circumstances. He arrived here from Chicago, some three weeks since, poorly clad, and money-less, and applied to Royal Gay, Forwarder, for work. Mr. Gay gave him employment about his warehouse, and up to Sunday his habits and deportment were of the most commendable character. During the morning of that day Mr. Gay had occasion to hang his coat—containing his pocket-book with some $380—in his room for a brief time, and on taking it down, an hour or so afterward, the pocket-book and its contents were among the missing, as was also the young man. Neither of them have yet been heard from, although Mr. Gay has offered a reward of $50, for the apprehension of the thief and the recovery of the money.

John is about 5 feet 2 inches in height, light complexion, blue eyes, and light curly hair.—The money was in 5's and 10's on the Merchants' and Mechanics' Bank of Macon, Georgia.—[Sheboygan Times, May 26th.

The Heaviest Freight yet.—The largest freight ever landed at this port from any one boat, was discharged from the American Transportation Company's propeller *Forest Queen*, Capt. Napier, from Buffalo, on last Monday night. It amounted to 155 tons of merchandise, exclusive of the freight and luggage of 25 Immigrant passengers. Three years ago this spring that would have been a large consignment from a dozen successive boats. Now, the ordinary freight for Sheboygan, by each of the lower lake boats, is from 40 to 80, and often 100 tons. And this increase is in a great measure owing to the existence of our excellent plank road to Fond du Lac. A railroad would in one year increase this same business five or ten fold.—[Sheboygan Times, May 26th.

Hot Weather.—Last Tuesday was a day of sweltering heat throughout the interior of this state, yet, singularly, along the Lake Shore it was so cool as to make fires far from uncomfortable. At Jefferson, Jefferson Co., the thermometer stood as follows:

At 10, A. M.,	90 deg
At 2, P. M.,	95 deg
At 6, P. M.,	84 deg

So says the *Jeffersonian*. At Beloit, according to the *Journal*, the thermometer went up to 98.—[Madison Dem.

Launch of the North Star.—The fine vessel built for Mr. F. Van Vleck by E. Sorenson was launched on Saturday at 5 o'clock P. M. The beautiful sight was witnessed by a large crowd of spectators and as the noble vessel plunged into the water, she was greeted with three rousing cheers.

The Steamer *Superior* had just left the South pier and in backing out she came opposit the harbor just as the launch took place and the answering shout from her decks proved, tha her passengers enjoyed the scene.

The North Star is of large size, (over 200 Tons) strongly built, fore and aft rig, carries a centre board and is well adapted to the lumber trade.—[Manitowoc Tribune.

Propeller L. L. Britton.—The N. Y. *Express* has the following paragraph in relation to this propeller, which may be expected here next week:

> The first freight from New York to the upper Lakes by steam, left on Wednesday afternoon, in the Propeller, L. L. Britton, of the New York and Mississippi Line, (Hugh Allen & Co.,) principally for Chicago and Milwaukee. She is to go the entire distance without any transhipment being made. This will be the first freight by steam to the Upper Lakes. The propeller is nearly new, and her bearings are so admirably constructed that, with the present cargo of 80 tons, she draws but three feet of water.

Laying of the Corner stone of St. Louis Church.—Bishop Henni officiated in the Catholic Church, in this City, on Sunday last. He administered the rite of confirmation in the morning to a number of candidates and delivered an eloquent and appropriate sermon. In the afternoon, immediately after Vespers, the Congregation, accompanied by the Bishop and the Rev. Mr. Deal, Pastor of the Church, formed in procession and proceeded with due solemnity to the site of the new Church in Block 28 where the ceremony of laying the corner stone was gone through with.

St. Louis Church will be built of stone or brick and is to be 131 feet in depth by 65 feet in width. It is to be a substantial and neat edifice—[Fond du Lac Union 24th inst.

☞ The drought still holds on. The grass and grain crops are beginning to suffer for the want of rain. We have plenty of indications, but they all end in a slight sprinkle, barely enough to lay the dust.

Unless we have heavy rains soon, we may look for light crops the coming harvest.—[Galena Advertiser May 26.

Serious Illness of Superintendent Wright.—We regret to learn that Hon. H. A. Wright, State Superintendent of Public Instruction is suffering under a serious illness from which there is little hope of his recovery. His disease is of a pulmonary nature.—[Madison Journal.

CITY MATTERS.

CIRCUIT COURT—May 28.

Judge Hubbell, Presiding.

In the morning the following persons were sentenced to suffer the penalty of their crimes as follows:

Walter Blake and Samuel McPherson for burglary with intent to steal and commit murder at the Ten Mile House, each to ten years imprisonment in the State Prison to be kept at hard labor—Blake to have ten and McPherson twenty days solitary confinement.

The Judge in referring to the occurrence at the Ten Mile House, stated that it was the most barbarous and inhuman of any act recorded in this state; and so it was; but we have refrained from publishing the evidence as there are others not yet tried, and we had no desire to prejudice their case.

Simon Adler, convicted of obtaining money under false pretences, was sentenced to one year and six months in the State Prison, one day solitary confinement.

Leopold Hardtke, convicted of forging an endorsement on a bill of exchange, was sentenced to two years in the State Prison, one day solitary congnement.

Michael Dwyer, convicted of an assault, twenty days in the county jail.

Carl G. Zastro, convicted of compound larceny, was sentenced to one year in the State Prison, and one day solitary confinement.

The case of the State vs. Goodman, for assault with intent to kill, was commenced to-day.

POLICE COURT—May 28th.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

John Auer was tried and convicted for a brutal assault and battery upon Margaretta Auer, his wife, on the 20th day of May and fined $30 and costs.

David Oldensburg was examined on a charge of stealing 14 cords of wood from Frederick W. Allevory on the 18th of May. Committed for trial. Gave bail in the sum of $300 and was discharged.

Henry Zuck arrested for an assault and battery upon P. Weinbrenner, fined $15 and costs.

The case of the state vs. August Buchlke, was settled; def't paying costs.

The case of the state vs. James Jordan was dismissed. The defendant was a drayman, and retained by force some baggage which he had on his dray, and on which the cartage was not paid, and in the melee striking the complainant.

Promenade Concerts.—The first of this series of Concerts is to be given to subscribers at Young's Hall to-morrow evening. We hope to see them well attended and the enterprising projector liberally patronized. The price of tickets is certainly moderate and the quality of the entertainment excellent.

Concert.—It will be seen from our advertising columns that Mr. Collins, the well-known Irish Comedian and Vocalist, will give his promised entertainment at Young's Hall, on Thursday evening next.

Handsome Store.—Messrs. Shoyer & Co., have just completed and moved into one of the best constructed and handsomest stores which the enterprise of the last twelve months has added to our city. It is on East Water street, and is the north building in the block of eleven which occupy a portion of the site of the old U. S. Hotel block, burned last August. It stands 20 feet by 90, and is 4 stories in height, of brick, with iron window frames and caps from Decker & Seville's foundry, in this city. John Rycraft is the mason, and the Babcocks the carpenters. The front is quite handsome, and the windows of the first story of plate glass, costing $800. Messrs. S. Shoyer & Co. occupy the first floor, which is elegantly fitted up, with their retail clothing establishment, and the upper stories are filled or to be filled with a large stock of goods in the same line, for wholesaling, by Messrs. E. M. Shoyer & Co.

When it is remembered that this firm lost by the fire in August last a large stock of goods—$18,400 being insured, but in Companies which failed, so that they did not recover one cent—we cannot but admire the indomitable energy which has given them this handsome store, which we notice above. We learn also that the same firm intend to erect this year two more fire-proof stores, with iron fronts, at Nos. 188 and 190 East Water Street.

National Portrait Gallery—History of the Indians.—Mr. G. Laurie, agent for the publishers, is now canvassing our city for subscriptions to the above valuable works. The National Portrait Gallery is published in four volumes on fine white paper, and large clear type. The engravings are remarkably well executed and are copied from recognized portraits. Each picture is accompanied by a well-written biographical sketch. The Indian Gallery includes biographical sketches and anecdotes of the principal Indian Chiefs and Tribes of North America, with one hundred and twenty handsomely colored portraits from the Indian Gallery at Washington; compiled by Col. J. L. McKenney, late of the Indian Department, and John Hall, Esq., of Cincinnati. Both of these are valuable works, and got up in the best style of the typographical art.

Dry Weather.—The weather continues cool and dry. We have had nearly three weeks of easterly winds, and cloudless skies, and the whole State is suffering, more or less, from drought.—Rain is ardently desired by our Farmers, who begin to fear that unless it comes soon their parched fields will yield but scant returns.

Cricket.—The Milwaukee Cricket Club meet on their grounds, north side of Spring St., on the hill, to-morrow afternoon, for practice. A full attendance of the old members and of all others desirous of joining the club, is requested.

Blackwood for May.—We are indebted to Archibald Wilson, 175 East Water Street, for an early copy of Leonard, Scott & Co's. republication of Blackwood for May. It is an unusually interesting number. The leading articles are: I. The Length of Human Life. II. Zaide, a Romance—part VI.—a charming story. III. Poetry of the War. IV. The Campaigns of a French Hussar—an admirable sketch. V. Modern Novelists—a slashing review of the prominent novels and novelists, English and American, of the last five or six years. VI. Notes on Canada—part 2. VII. *The Royal Scottish Academy.* VIII. The Cold Shade. IX The story of the Campaign—part 6.

Scott & Co. furnish Blackwood to subscribers at $3 per annum, or with any of the Reviews at $5.

Harper for June.—The June number of Harper's popular Magazine is already forthcoming at our bookstores, and we are indebted to Mr. E. C. Arnold, East Water St., for an early copy. Among its contents are "the history and mystery of tobacco"; "California thro' English eyes"; Sketches in Brazil"; four more chapters of Thackeray's "Newcomes"; "a journey thro' China"; several clever stories, and the usual editor's table, monthly record of events, literary notices, comicalities, original and selected, and fashions for June.

☞ The Sheboygan *Times* of Saturday tells of some enterprizing citizens of that burgh who are about erecting a first-class Hotel there. When they have done this good work for Sheboygan we should like to borrow these gentlemen, for a few months, and get them to do as much for Milwaukee.

Rail Road Laborers.—Messrs. A. Graham & Co., contractors on the Wisconsin Central Rail Road, landed here yesterday from the steamer *Globe*, about 150 horses and carts and 150 laborers, who are to go to work at once on the Central Rail Road, beginning at Elkhorn, Walworth County.

☞ Rooney has another sale of Damaged Goods at his Auction Rooms this morning, to which he invites attention.

New Firm.—We understand that Mr. Ball, (late of Ball & Button) and Mr. W. Bean, have leased one half of the large warehouse of W. B. Alvord, together with lots adjoining, and intend to offer their services soon to the public, as forwarders and commission merchants. A steam elevating engine will be put into the warehouse at once. The yard adjoining will be used for *dealing in coal, and in the iron from* the Dodge County mines, which latter will very soon become a large item in our exports.

Accommodation for Reporters.—The Reporters of the city papers ought to feel under many obligations to the City Clerk for the accommodations furnished them for reporting the proceedings of the Common Council. A centre table, with three comfortable cane seated easy chairs, with inkstand, pens, stationery, &c., and *spittoon*, comprise the improvements; the table being placed *within* the "sacred circle." We remember to have reported in a room in the same building, when the table, a second-hand one at that, was placed *outside* the "sacred circle."

A handsome addition has also been made to the Mayor's seat, the window at his back being elegantly draped with crimson and black damask satin curtains, with gilt scroll above, and handsome cord and tassels. Upon the whole, the Common Council Room looks exceedingly comfortable.

Common Council.—The Common Council last evening received a communication concerning putting up sign-boards with the names of the streets, and an invitation to attend the Fire Department Review.

They then took up the Harbor contract question, and were busily engaged upon it when we went to press. The only important idea elicited up to that time was on a "rough guess" by the City Attorney, that at the present rate of progress, the work would be done in 18 or 20 years! Ald. Powers has good pluck, and we hope that enough will stand by him to probe this matter to the bottom. Count us in, gentlemen!

Hollow Brick.—Our ingenious friend A. J. Langworthy, of the Wisconsin Iron Works, has has been getting up a machine for the making of these brick, and advertises that it may be seen to-day. We can tell more about it to-morrow.

Nursery Garden for Sale.—Wall notifies the public of a great chance for a bargain in this way. Look at it.

Auction.—Crampton sells at auction to-day a lot of furniture and bedding. Such is man that he cannot do without them.

City Maps.—Mr. I. A. Lapham has got out a new edition of his map of Milwaukee, with all the additions up to the present time. Copies can be obtained at the city bookstores, or from Mr. L. himself.

☞ The propeller *Allegany*, Capt. Curtis, of the A. T. Co's. line, arrived from Buffalo yesterday, with 275 tons merchandise for this port, having landed 40 tons at Sheboygan and 15 tons at Port Washington. She has made so quick a trip as to get here before her bills of lading; consequently we are unable to give her cargo.

☞ The steamer *Pacific* arrived from Chicago yesterday afternoon, with 200 passengers, 29 horses, and a small quantity of freight.

MARINE INTELLIGENCE.

The schooner *Melrose*, Captain Becker, arrived here last night from Milwaukee with 12,300 bus wheat to S. J Holley. The *Melrose* cleared from this port the latter part of April with a cargo of dressed lumber for Milwaukee, and has made the trip round ahead of any other vessel bound down which wintered at Chicago and Milwaukee.—*Oswego Palladium.*

Collision on Lake Huron.—The schooners Hurricane and brig Tuscarora came in collision yesterday on Lake Huron. The Hurricane was considerably damaged, though we could not learn to what extent. She was towed into the river by the schooners Fulton and Challenge. There was some water in her hold. Her cargo of grain will be somewhat damaged.—*Detroit Tribune.*

Last night the following vessels passed down the river: Schooners Maple Leaf, Thornton and May Queen, and this morning, schooners Mason, Ceerola, Reeve, Montezuma, Sebastopol, Reindeer, Carrington, Collins, Young America, Challenge and Fulton.—*ib.* 25th.

The past week has been marked by great activity in all departments of business. The receipts of merchandise, lumber, &c., by lake have been large, and the receipts of produce by railroad and by teams, greatly beyond those of any preceding week this season. The shipments also have run up to a high figure, and our forwarders have sent off produce to the eastward amounting to *over half a million of dollars*, exceeding, we think, the shipments of any previous week in the history of our city. And there is more yet to go forward. The receipts of flour and wheat from the country are still liberal, and there are no present signs of falling off.

Rain is very much wanted for the crops, none having fallen in this region and west of us for nearly three weeks, except a slight shower a week ago yesterday, although the country, both north and south of us, has been more favored. The growing crops are now suffering very much for the want of moisture, as we have been entirely left out in the allotment of spring rains, and it is reasonable to fear great damage, unless the needed sustenance for the earth come shortly.

We have noticed during the week sales as follows, which include none of the daily transactions at depot:

22d—37000 bus wheat from store at 165 and 10,000 free on board at 1,62½.

23d—1000 bbls No 1 flour 8,37½—17,000 bus wheat at 1,66, free on board.

24th—200 bbls Delavan flour 8,25, 500 White Creek 8,50, 500 Forest City 8,37½—10,000 bus wheat, 155, delivered in Buffalo.

25th—200 bbls Eagle extra (country) flour 8,62½, and 1000 do at 9,00—400 bbls prime pork 12 75,—200 do mess at 16,00—4000 bus spring wheat 1,65, 10,000 do delivered in Buffalo at 1,87.

26th—400 bbls No 1 flour 8,50—10,000 bus corn delivered in Buffalo, 95, and 15,000 do in July at 93.

Flour—during the week has advanced about 25c per bbl, with sales from day to day as above, and yesterday, 200 bbls Watertown No. 1 sold at 8,50, and 500 bbls Cayuga at 8,50. We advance our quotations in the table, though there is great uncertainty as to how long present prices will stand. We hear of 2000 bbls Magnolia No. 1, selling in New York at $10 50; and such returns, together with advices of the reshipment to Canada of a large amount of flour which had started for New York, make holders quite firm.

Wheat—Large receipts and an active business all thro' the week, with an advance of about 10c per bushel on spring, winter not partaking of the advance in any great degree, as the spring is excellent, and nearly as good for flouring. About 300,000 bus has been received during the week from the country. Spring yesterday sold freely at depot, at 1,66a1,68; winter brought 1,75a1,80.

Rye continues in good demand at 1,12½a1,14, but the receipts are very light, and as these prices have ruled for some time, the probability is that the amount in farmers' hands is but small.

Barley—very dull, and with small receipts our quotations are only nominal at 87a90.

Corn—receipts slightly improved, but not sufficient to tempt dealers to operate, as there are no large lots to handle. With increased receipts, corn would bring 77a78, but as it is, the best figures are 73a75.

Oats—little doing—dull at 48a50c.

Provisions and Beef Cattle have advanced, and we alter our figures accordingly.

Pig Iron—we reduce our quotation of Wisconsin pig iron, from Dodge Co, to $35,00 per ton. Arrangements are being made for bringing greater quantities into market, and the business is destined to increase rapidly.

Bar Iron—there is a reduction in some qualities.

Hides have advanced somewhat, as see our table.

Lumber—The receipts up to date are double those of last year, but the demand increases with equal rapidity, and we have no change to make in our quotations. The market has been greatly improved by the receipt of a large quantity of seasoned stuff—seven cargoes of it to J L McVicker & Co. This was much needed, and is sold at about $2,00 per M above ordinary lumber.

Wool—Thus far but little has been done. The few small lots arriving, have been sold within the range of our quotations—20a30—but there is not yet enough doing to establish rates for the different kinds. The opinion seems to be gaining ground that prices will improve, tho' no such figures are expected as those of year before last.

Tolls on the Sault Canal.—The Detroit *Democrat* gives the following statement as to the tolls to be charged upon vessels:

> The present State tariff of tolls, is fixed at a minimum of four cents per ton, measurement, which would give, on an ordinary schooner, from $10 to $15; on a brig $17 50 to $20; on large propellers $30, and on side wheel steamers from $40 to $50. At the rate of one per day, which is certainly as much as there will be to pass for this year and next, this would not amount to more than an average of $25 per day, which will be insufficient for salaries and pay of men, to say nothing of repairs.
>
> The means of getting boats and propellers through the Canal, is of course by the use of their wheels, but sail vessels will require to be towed, and for that purpose horses will be required, the expense of towage falling, of course, upon the vessels. A wide and handsome tow path has been made upon the right bank of the work, and a corresponding heel-path upon the left bank.

RUFUS KING & CO.

Tuesday Morning, May 29.

Board of Trade—Meeting To-Night.

A meeting of the Board of Trade was called last evening in reference to the application for the U. S. Government dredge, to clear out the channel of the river. There being but few members present, a committee consisting of Messrs. S. B. Grant, L. H. Kellogg and Rufus King, was appointed to wait upon the Common Council and solicit their action in the premises, and the Board adjourned to meet again this evening, at half past seven o'clock. The adjourned meeting is for the special purpose of considering and disposing of the subject of the Straight Cut. As this interests every forwarder, produce-dealer, vessel owner, merchant, and insurance agent in our city, and is a matter of the first importance to our commercial prosperity, we hope to see to-night a full and punctual attendance of the members of the Board of Trade.

Virginia Election.

There is no longer reason to doubt that the Virginia Election has resulted disastrously to the Know Nothings and triumphantly for Mr. Wise and his supporters. This will be a sore disappointment to the K. N's., while it is a most acceptable "crumb of comfort" to the Pierce Administration. We think, too, that the fierce contest in Virginia will prove the *crisis* in the K. N. disorder, and that we shall soon see this political epidemic abate as rapidly as it spread, and speedily vanish altogether.

Milwaukee & Mississippi Railroad.

The receipts upon this road are going up beyond all precedent, and all estimates thus far made. Up to and including the 25th, the receipts for May were as follows:

Passengers,	$16,534 32
Freight,	31,895 94
Total,	$47,430 26

The following shows the receipts for the six days ending with the 25th:

19th,	$2513 44
21st,	3034 21
22d,	2613 33
23d,	2988 62
24th,	3270 60
25th,	3010 39
Total,	$17,430 59

With the receipts from mail and express, and from the Watertown road, the total for May will be about $65,000. The receipts for May, 1854, were $41,751 31.

Explosion on Lake Winnebago.—We learn from Mr. C. D. Robinson, of the Green Bay *Advocate*, who arrived in town last evening, that the steamer *Sampson*, plying between Fond du Lac and Calumet, while lying at the latter place, *exploded* a boiler on Friday last, killing the Engineer and the Captain's son, and injuring one or two other persons severely. The boat was badly damaged.

The Kansas-Nebraska Outrage.

The *News* of Saturday, commenting upon an article in the Washington *Union*, on the subject of the Kansas trouble, which counsels "forbearance" after having helped to open the door to pro-slavery aggression and violence, thus speaks of that iniquitous measure:

> That the Kansas and Nebraska organization act was designed to avoid the very dangers that the present portents threaten, we have never doubted. *Although we have not been able to appreciate it as a measure of pacification, and have from the first regarded it with forebodings of evil*, yet we have hoped for the best, and have been willing to struggle for the ends anticipated by those who have considered it the wisest solution of the slavery problem, which the apparently conflicting interests and prejudices of the country would admit of.

This is rather a novel position for the *News*, which has heretofore been regarded as a staunch advocate of the Kansas-Nebraska bill. It is only, however, the utterance of that "sober second thought" which is common now to almost the entire North, without distinction of party.—Even the most zealous adherents of the Federal Administration, and the blindest followers of Douglas & Co., now see and admit that the passage of the Kansas-Nebraska bill was an intolerable wrong to the North, an outrage upon Justice and an indignity to Freedom, which "returns to plague the inventors."

Inexpensive Ceremony.—On the last day of the session of the Massachusetts Legislature, Mr. Pierce, of Essex in behalf of many of the members presented an elegant gold-headed ebony cane to the Hon. H. O. Brown of Tolland—the Democratic party in the House—as a token of their esteem for him personally, and of their admiration for the manner in which he had discharged the difficult and responsible task of representing the entire Democracy of the Bay State.

The Spirit of the "Squatter Sovereigns"—That infamous scoundrel, Stringfellow, who is among the leaders in the late outrages committed in Kansas, and who now edits a paper called "the *Squatter Sovereign*," uses the following language in a late number, in relation to the death of Clark by the hands of McCrea, who shot the former in self-defence:

> For every honest man that is slain, let a score of abolitionists suffer. We call for a settlement of this affair—let us make examples of such outlaws, and their sympathisers, until our fair Territory is ridden of such curses—until honest men can walk the streets of our towns, without the fear of being attacked by Northern cut-throats and hired assassins; until our horses and firesides can be made secure from the torch of the *incendiary*, and our slaves be permitted to remain with us in quietude and contentment. As long as *one* abolitionist remains in the territory, such occurrences will be numerous, both here and in Missouri. Let us begin to purge ourselves of all Abolition emissaries who occupy our dominion, and give distinct notice that all who do not leave *immediately for the East, will leave for eternity!*

St. Clair Flats.—The Chatham (C. W.) *Planet* publishes the following extract from a letter written by Edwin Larwill, Esq., member of the Provincial Parliament, dated Quebec, May 16th:

> "I have got £5,000 for the improvements contemplated on the St. Clair Flats. But it would appear the Government do not expect the money will be expended this year. I shall know more about it by and by. I have not time to say more."

Lake Shore Rail Road—Extension Northwardly.—Our contemporaries north of us, along the Lake Shore, take a lively interest in the success of the Rail Road just opened, between this city and Chicago, and already anticipate its extension Northwardly. The Evergreen City *Times*, in noticing the opening of the road, says:

> We prophesy, that before the expiration of two years from last Saturday, the opening ceremonies of the road to Sheboygan will have taken place. Our citizens are ready, on receiving from the company a *guaranty of exemption from the payment* of either interest or principal, to vote a loan of the City credit to the Company, to the amount of $200,000.

☞ James Russell Lowell, the poet, has engaged his passage in the packet ship St. Nicholas which sails from New York, on the 1st of June. He will remain abroad a year to fit himself more perfectly for the duties of his Professorship. His predecessor, Longfellow, went abroad for the same purpose when first appointed. Mr. Lowell will proceed through France to Germany and, for a time at least, will reside in Dresden, where his sister, Mrs. Putnam, the writer on Hungary, is now living. A portion of his year abroad is to be spent in Spain.

Coming into Wisconsin Head-foremost.—Bayard Taylor, in a recent letter to the N. Y. *Tribune*, states that he first entered Wisconsin *on his head*, having been pitched head-foremost from his buggy, just as he reached the State line near Beloit.

The Largest Ship in the World.

The public is probably not aware that the largest ship in the world is in the course of construction for the United States Navy, by Mr. Steers, in the Brooklyn Navy Yard. She is the steam frigate Niagara. "She is," says the *Tribune*, "truly the most graceful, satisfying work of art we have ever beheld, and, looking upon the faultless curves of her timbers, and the fascinating sweep of her enormous hull, one feels as every artistic and thoughtful mind must sometimes have done when gazing upon a sleeping infant, or a bank of cumulous clouds in a summer sky." The *Tribune* says further:

> The Niagara is we learn the largest of the five screw steam frigates which are now in process of construction for the Navy, and as we have stated, the largest ship in the world; and we have no doubt that she will be as preeminent in beauty and in all the qualities which a ship should possess as she will be in size.
>
> The actual dimensions of this magnificent vessel are as follows: Tunnage, 5,200; extreme length on deck, 345 feet; load line, 324 feet, extreme breadth, 55 feet, depth of hold 31 feet three decks besides the orlop. The armament will consist of 12 eleven inch pivot guns to carry 170 lb shot and a charge of 15 lbs. of powder. She is to be full ship-rigged, her mainmast being 111 feet long and 3 feet 4 inches diameter, the main yard will be 55 *feet and the mizzen* spanker boom 67 feet.
>
> The Niagara is constructed wholly of live oak. *Congress appropriated one million of dollars* for her construction, but her cost it is thought will not be over $900,000.

☞ Irving's Life of Washington.—The first edition of this long expected and important work is to be published in three volumes, octavo, elegantly printed with large type, on fine paper and containing three or more portraits, viz:—one by Peale, at the age of forty; one by Wertmuller, at the age of 62, (an original and interesting picture, now first engraved) and the full length statue by Houdon—also maps and plans. This fine edition will be sold only to subscribers and agents are now engaged, or being engaged in every part of the country. It has been estimated that at least 150,000 copies of this edition will be called for, for surely the first full and satisfactory biography of the "Father of our Country," by the foremost American author, should be owned by every American family that owns any book besides their Bible. The whole of the manuscript is complete, and the first volume will be delivered to subscribers very soon—the other two will follow at short intervals.—It is published by G. P. Putnam & Co., of New York.

How the Empress Eugenie Wears her Bonnet.—The London Morning Post was very great during the late Imperial visit upon matters of *dress*; and is regarded as high authority upon all questions connected with that important subject. This journal says.

> "In regard to the much mooted question as to whether a bonnet should be worn on the head or off it, it may not be amiss to take advantage of the actual presence of her Imperial Majesty, *who is said to have introduced this* popular feminine eccentricity to place on record that, although the bonnet of the Empress Eugenie displays fully her face and hair, it does not convey to the beholder the idea of its being likely to fall from the head behind, but rather seems to cling to and support the hair in that position: This gives a lightness and grace of carriage to the head totally distinct from that boldness and barefacedness which has characterized the adoption of the French Imperial fashion."

Running the Blockade.—The London *Standard* has the following in relation to the American vessel which is said to have reached one of the Russian ports:

> A very extraordinary circumstance, reported from a quarter which precludes any doubt as to the truth of the statement, reaches us by letter from St. Petersburg. It appears that a fine American frigate-built ship recently arrived at a port in the Baltic.
>
> It was stated that the vessel had on board 600 bales of cotton, but the correspondent of our informant visited the ship and found, in addition to the above, she had fifty thousand rifles and four thousand revolvers. The Russians laugh at our cruisers, and naturally ask, if John Bull has been asleep to have allowed so valuable a cargo to escape. The Messrs. C——, merchants of Boston, were passengers, and it is supposed acted as supercargoes. We have not been able to ascertain if the vessel left America this season and has cut her way through the ice before our Flying Squadron could come up with her, or if she reached one of the lower ports of the Baltic last year, and lay quiet till the spring. We say no more than:—"What are the Consuls in the United States about, to have permitted such a cargo to leave without apprising our government of the fact?"

Large Cargo of Cotton.—The ship *Ellen Austin*, of 1,698 tons burden, which left Savannah for Liverpool on the 18th inst., had a cargo of 5,555 bales of cotton, weighing 2,397,817 pounds, and valued at $223,279 19. This is the largest cargo of cotton in one vessel ever shipped from any Atlantic port.

William H. Seward.—The Providence *Journal* makes the following very happy and truthful reference to Mr. Seward:

> We have known people—over righteous people—who kept a devil, which they charged with the burden of all their own sins. The credit of their good deeds they took to themselves; but whenever they were caught in anything inconsistent with their large professions of virtue, in came the devil who had tempted them to sin. Mr. Seward serves the politicians of New York in a similar useful capacity. Whoever does anything wrong, whoever finds it necessary to excuse or explain an act that admits of neither, has only to say Seward, and the thing is ended.
>
> Few things are more admirable, hardly any thing is more difficult than the serene contempt with which a good man looks down upon falsehood and slander. We have long watched the course of William H. Seward. There has not been a man in public life, in our day, whose record stands fairer. Without the foolish pride of invariable consistency which is only another name for stolid obstinacy, Mr. Seward has remained faithful to his early opinions, and has never modified them to revenge a wrong, or to take advantage of the popular current. In many things we do not agree with him, but in every thing we award to him the power of great ability, of conscientious fidelity, and of indifference of personal consequences, when placed against the general good. His re-election was a great triumph to him and a greater triumph to the country. In the Senate he stands without a superior, and there is hardly a man in the public service whose loss would be so severely felt. He can well afford to smile at the detraction, which when it was far more offensive and dangerous, he always scorned to notice.

"Sam" in Egypt.

We were talking the other day with a gentleman who recently traveled through Southern Illinois, who confessed to have been cured of some slight Know Nothing proclivities by his observations in that section. Some of the towns are almost exclusively settled by Germans, while in others the native-born constitute nearly the entire population. The latter are mostly Kentuckians and Virginians, or their descendants; a rude, rough, indolent set of beings, who have lived in that land flowing with hog and hominy so long that every spark of enterprise is extinct among them. Scarcely any exertion is necessary to raise sufficient corn to grow their pork and make their hoe-cake. They live in dirty little hovels. School houses are like angel's visits.

Sun-burnt, tow-headed childhood vegetates into ignorant, listless manhood; and life from generation to generation is a dull and profitless round, where hogs devour rattlesnakes, and men devour hogs. This picture may be somewhat exaggerated, but is nevertheless true, in all essential details, of a large class of the inhabitants of this modern Egypt. He was struck with the different appearance of the German settlements; by the superior thrift, intelligence and enterprise exhibited among them. Their houses were better, their farms better tilled, and, in almost every respect, they seemed to surpass their Sucker neighbors.

On further inquiry he found that the Germans were nearly all anti-slavery in sentiment, while in the Yankee or Sucker districts, the doctrine of "America for Americans" in the modern "Sam" sense was generally prevalent, allied to violent pro-slavery and "popular sovereignty" principles of the Stringfellow stamp. He came away with the impression that the Germans were full as well qualified for taking some part in the elections and for having some voice in the government as their native born America neighbors.—[Madison Journal.

Man Drowned.—This morning just after the arrival of the *Peytona*, a man named Jacob Sinnor, in passing from the steamer *Eureka* to a scow-boat along side, fell into the river, between the two boats, and was drowned before assistance could be rendered him. His body was recovered in ten or fifteen minutes, but all efforts to restore him to life proved ineffectual. He was a German—a resident of this city, and has left a wife and two children.—[Oshkosh Courier.

Gone at Last.—The Buffalo *Commercial* of Friday last vouches for the fact that the ice, which has blockaded Buffalo harbor so perseveringly this Spring, has at length disappeared, and gone down Niagara river. It is a comfort to think that, no matter which way the wind blows, it cannot get up stream, and therefore it may be set down as gone for the season.

Minnesota.—The Republicans of Minnesota Territory have called a Delegate Convention at St. Paul on the 28th of July, to nominate a candidate for Delegate in Congress, and to take the necessary steps for securing a thorough organization of their party. Minnesota, like its near neighbors, Iowa and Wisconsin, is bound to be Republican.

Low Water in the Mississippi.—Our St. Paul and Galena exchanges begin to complain of the low water in the Mississippi as impeding navigation, and represent the crops as suffering greatly for the want of rain.

The Administration Upon Senator Taylor.

The *Madison Argus and Democrat*, always a most virulent partizan print, particularly in the fulfillment of its office as the organ of "Barstow and the balance," seems to have become, if possible, more acrimonious than ever, under its new *regime*. After spitting its venom with cat like malignity right and left for some weeks, in its insane endeavors to fasten upon the Republican members of the last Legislature, the charge of bankrupting the Treasury, and making necessary the state tax of $350,000 to liquidate the state indebtedness already existing, and defray the current expenditures of the present fiscal year, and being unable to accomplish this Herculean task,—it now seeks to console itself over its failure by showing its teeth with a spiteful snarl by way of admonition to Senator Taylor of this city.

Because he literally complied with the long continued and clamorous demands of Gov. Barstow and his supporters, for a searching and thorough investigation into the administration of the financial affairs of the State, instituted such an investigation, and reported a state of facts which served to startle the administration braggarts from their propriety, *the Argus and Democrat* flippantly denominates him "the Mr. Hiss of the late Wisconsin Legislature," characterizes his arguments as "the tortuous windings of a pettifogger," and sneers at his eloquence as "breathing the dignity of the pot-house!"

Such language applied to Senator Taylor, from whatever source it may chance to come, and especially when emanating from the *Argus and Democrat*, will have no other effect than to excite for its author, the scorn and contempt of those who know him. His reputation is not confined within the limits of his Senatorial District, but he is widely known through the state as a courteous and dignified gentleman, a deeply-read, studious, able, and candid lawyer—one who has the ability and the industry to investigate all knotty or tangled matters, not even excepting the legerdemain performances of the Barstow administration with the state finances.

His laying bare their iniquities was an excoriation they did not anticipate, and the sting of which they cannot forget, and hence the rancorous malignity with which they unloose upon him this their "dog of war."—[Sheboygan Times.

Scene in the Caucasus.

DELIVERY OF SCHAMYL'S SON TO HIS FATHER BY THE RUSSIANS.

The *Caucasus*, a newspaper published at Tiflis, contains a communication respecting a recent exchange of prisoners between the Russians and the chief of the Circassians. On this occasion Schamyl received back one of his sons, who, having been taken away in his boyhood, had been educated in Russia, and even served in the army. The *Caucasus* says: Last summer the Princess Tchavtchavadse and the Princess Orbeliani, with her children, were captured by some of Schamyl's hands. Their captivity lasted eight months, notwithstanding the utmost efforts of the government and their relatives. They at length succeeded, however, in inducing Schamyl to accept ransom from them to the amount of 40,000 silver roubles, together with the surrender of his son.

On the 22d of March both parties met for effecting this exchange, Schamyl, who, to the last moment, was exceedingly distrustful, being accompanied by a body of six or seven thousand men, who brought with them some field pieces. As soon as he had taken up his position on the right of the frontier river, the Mitschik, and the *Russian on the left, he sent his other son*, Kasi Muhammed, with thirty Murids as an escort to the carriage containing the prisoners, to meet the Russians. On the Russian side a party of riflemen crossed the river, accompanied by Major General Caron Nikola Prince Tchavtchavadse, and Jamal Eddin, Schamyl's son that was to be exchanged. They were followed by a carriage containing the stipulated sum. When Jamal Eddin approached the ford of the river, thousands of voices repeated, in a monotonous chant, the words *Estephir Alla, which are* a thanksgiven when any enterprise has come to a prosperous issue. While the son was crossing the river, a dress was brought to him as a present from his father, which he immediately put on.

As soon as he had assumed his new attire, being accompanied by the Russian officers and his brother, Kasi Muhammed, he climbed the mountain where his father was sitting surrounded by the Murids, while a mountaineer held over the chieftain's head a dark parasol. Schamyl is a remarkably handsome man, 47 years of age, with a very expressive face, and prepossessing manners. When his son approached him, he stretched out his hand for him to kiss, then embraced him and wept. After that he bowed in a friendly manner to the Russian officers, and requested them to thank Baron Nicolai for the kindness with which he had treated his son. After this he added, as if replying to his own thoughts, "I believe now in the honor to the Russians." The *story runs that he was not a little afraid lest the* Russians, after the exchange was over, should surprise him and carry back again the money, perhaps his son into the bargain. The report concludes with the remark that this interview is memorable, inasmuch as no Russian since the year 1839 had ever seen Schamyl.

Large Verdict.—On Friday the Jury in the case of Lewis H. Yarwood vs. Galena & Chicago Union Railroad Co., tried at the Kane Circuit before Judge I. G. Wilson, returned a verdict for the plaintiff of $2,500. The plaintiff was a passenger on the train of the defendants the cars *ran off the track—a snake head the cause*—and the plaintiff jumped from the cars and was injured in falling. On the first trial the jury disagreed. On the second, a verdict was rendered for the plaintiff for $1000 damages. This judgment was reversed in the Supreme Court upon the ground that it was a part of the contract that the plaintiff should ride in the baggage car, that he left the car in violation of his contract, and thus sustained the injury. The case was remanded for another trial, and the jury decided that there was *no such* contract, and rendered the above verdict for the plaintiff. The case will be appealed to the Supreme Court again by the Company.—[Chicago Democrat

Green Bay for a Summer Resort.—We presume that there is not a place in the West which equals in point of healthiness, economy of living, and pleasantness, our town as a summer resort. We have good hotel accommodations, and especially one house, the *Astor, is adapted for families*; board can be had at less prices than at almost any other lake port, game on land and in water is plenty—the vicinity abounds in fine drives—and no place in the United States has so good a reputation for health. We expect to see flocks of people from cholera raged districts coming here this summer.—[Green Bay Advocate.

Settlement of the Eastern Question.—A Washington correspondent of the Buffalo Republic has discovered the *secret* that the war in Europe is to be left to the arbitrament of the three Ex-presidents, Van Buren, Tyler and Fillmore.

And that duty performed, Mr. Fillmore, it is understood, will proceed to the Installation of "Know Nothing Lodges," upon the Continent, having received, from "Macomber, Jewett, &c" a *Dispensation for that purpose.*—[Albany Evening Journal.

Drinking from the Original Package.—The first case of carrying out the provisions of the Prohibitory Law, came up yesterday afternoon: A workman near the foot of Dey street, with the *aid of a gimlet, took a drink from the original* package, but finding it rather stronger than he had been accustomed to drink, he attempted to dilute it by falling into the dock, from which he was taken by the bystanders, and honored with a ride in a coal cart to his lodgings, in a celebrated city institution, between Centre and Elm streets.—[N. Y. Mirror.

The Second Shipment of Wheat from this port this season, was made by our townsman W W King, upon the Schr. *Maple Leaf*, Capt. Earle. She cleared for Buffalo, on Saturday last, with a cargo of 13,000 bushels. There are about 120,000 bushels more in store here for shipment.—[Sheboygan Times.

Large Train.—The 12 M. Emigrant train which left on the Central Road yesterday, comprised fourteen passenger cars with over 800 emigrants, mostly Germans, bound for the far west.—[Albany Register, May 25.

☞ The steamer *Key Stone State*, on her last trip down, shipped 2000 bushels of wheat at this port for Concord, New Hampshire, via Collingwood and the Simcoe and Huron Railroad.—[Sheboygan Times, May 26.

The Crops and the Fruit in Ohio.—An intelligent and observed correspondent of ours has, during the past week, traveled through several counties in Southern Ohio, and was at especial pains to observe and inquire about the crops and the fruit. In Clermont, Brown, Highland and Adams counties, the farmers and the towns people rejoice in the liveliest assurances of abundance. The fruit trees are all, indeed, overladen, and the wheat and corn and potatoes are coming on as finely as the most unselfish philanthropists could wish. Not quite so much wheat was sown as in past years, but every acre in which corn or potatoes could be planted, has been improved.—[Cincinnati Commercial, 22d.

Milwaukee Opera Troupe.—The Milwaukee Musical Association, said to be equal to any *company of the kind in the United States*, have lately been delighting the people of their city with the opera "*Der Freischutz*." The papers speak of it in the most enthusiastic terms.

Though the society is made up of amateurs, we hope the members thereof may consent to visit Chicago, and treat their *Sucker* neighbors to the entertainment that has turned the heads of our Milwaukee neighbors. Metropolitan Hall affords ample accommodation for twelve hundred people, and we think we give assurance that it would be filled at any moderate price. Aside from the gratification afforded by the music, such a visit would do much toward establishing the *entente cordiale* between the two cities. Will the Philharmonic Society of Chicago allow us to suggest that their invitation would bring about the desirable result?—[Chicago Tribune of yesterday.

A Bold Theft.—A bold larceny was committed in this city, last Sunday, by a young man 17 or 18 years of age, by the name of John——, under the following circumstances. He arrived here from Chicago, some three weeks since, poorly clad, and money-less, and applied to Royal Gay, Forwarder, for work. Mr. Gay gave him employment about his warehouse, and up to Sunday his habits and deportment were of the most commendable character. During the morning of that day Mr. *Gay* had occasion to change his coat—containing his pocket-book with some $380—in his room for a brief time, and on taking it down, an hour or so afterward, the pocket-book and its contents were among the missing, as was also the young man. Neither of them have yet been heard from, although Mr. Gay has offered a reward of $50, for the apprehension of the thief and the recovery of the money.

John is about 5 feet 2 inches in height, light complexion, blue eyes, and light curly hair.—The money was in 5's and 10's on the Merchants' and Mechanics' Bank of Macon, Georgia.—[Sheboygan Times, May 26th.

The Heaviest Freight yet.—The largest freight ever landed at this port from any one boat, was discharged from the American Transportation Company's propeller *Forest Queen*, Capt. Napier, from Buffalo, on last Monday night. It amounted to 155 tons of merchandise, exclusive of the freight and luggage of 25 immigrant passengers. Three years ago this spring that would have been a large consignment from a dozen successive boats. Now, the ordinary freight for Sheboygan, by each of the lower lake boats, is from 40 to 80, and often 100 tons. And this increase is in a great measure owing to the existence of our excellent plank road to Fond du Lac. A railroad would in one year increase this same business five or ten fold.—[Sheboygan Times, May 26th.

Hot Weather.—Last Tuesday was a day of sweltering heat throughout the interior of this *state, yet, singularly, along the Lake Shore it* was so cool as to make fires far from uncomfortable. At Jefferson, Jefferson Co., the thermometer stood as follows:

At 10, A. M.,	90 deg
At 2, P. M.,	95 deg
At 6, P. M.,	84 deg

So says the *Jeffersonian*. At Beloit, according to the *Journal*, the thermometer went up to 98.—[Madison Dem.

Launch of the North Star.—The fine vessel built for Mr. F. Van Vleck by E. Sorenson was launched on Saturday at 5 o'clock P. M. The beautiful sight was witnessed by a large crowd of spectators and as the noble vessel plunged into the water, she was greeted with three rousing cheers.

The Steamer *Superior* had just left the South pier and in backing out she came opposite the harbor just as the launch took place and the answering shout from her decks proved, that her passengers enjoyed the scene.

The North Star is of large size, (over 200 Tons) strongly built, fore and aft rig, carries a centre board and is well adapted to the lumber trade.—[Manitowoc Tribune.

Propeller L. L. Britton.—The N. Y. *Express* has the following paragraph in relation to this propeller, which may be expected here next week:

> The first freight from New York to the upper Lakes by steam, left on Wednesday afternoon, in the Propeller, L. L. Britton, of the New York and Mississippi Line, (Hugh Allen & Co.) principally for Chicago and Milwaukee. She is to go the entire distance without any transhipment being made. This will be the first freight by steam to the Upper Lakes. The propeller is nearly new, and her bearings are so admirably constructed that, with the present cargo of 80 tons, she draws but three feet of water.

Laying of the Corner stone of St. Louis Church.—Bishop Henni officiated in the Catholic Church, in this City, on Sunday last. He administered the rite of confirmation in the morning to a number of candidates and delivered an eloquent and appropriate sermon. In the afternoon, immediately after Vespers, the Congregation, accompanied by the Bishop and the Rev. Mr. Deal, Pastor of the Church, *formed in* procession and proceeded with due solemnity to the site of the new Church in Block 28 where the ceremony of laying the corner stone was gone through with.

St. Louis Church will be built of stone or brick and is to be 131 feet in depth by 65 feet in width. It is to be a substantial and neat edifice—[Fond du Lac Union 24th inst.

☞ The drought still holds on. The grass and grain crops are beginning to suffer for the want of rain. We have plenty of indications, but they all end in a slight sprinkle, barely enough to lay the dust.

Unless we have heavy rains soon, we may look for light crops the coming harvest.—[Geneva Advertiser May 26.

Serious Illness of Superintendent Wright.—We regret to learn that Hon. H. A. Wright, State Superintendent of Public Instruction is suffering under a serious illness from which there is little hope of his recovery. His disease is of a pulmonary nature.—[Madison Journal.

CITY MATTERS.

CIRCUIT COURT—May 28.

Judge Hubbell, Presiding.

In the morning the following persons were sentenced to suffer the penalty of their crimes as follows:

Walter Blake and Samuel McPherson for burglary with intent to steal and commit murder at the Ten Mile House, each to ten years imprisonment in the State Prison to be kept at hard labor—Blake to have ten and McPherson twenty days solitary confinement.

The Judge in referring to the occurrence at the Ten Mile House, stated that it was the most barbarous and inhuman of any act recorded in this state; and so it was; but we have refrained from publishing the evidence as there are others not yet tried, and we had no desire to prejudice their case.

Simon Adler, convicted of obtaining money under *false* pretences, was sentenced to one year and six months in the State Prison, one day solitary confinement.

Leopold Hardtke, convicted of forging an endorsement on a bill of exchange, was sentenced to two years in the State Prison, one day solitary congnement.

Michael Dwyer, convicted of an assault, twenty days in the county jail.

Carl G. Zastro, convicted of compound larceny, was sentenced to one year in the State Prison, and one day solitary confinement.

The case of the State vs. Goodman, for assault with intent to kill, was commenced to-day.

POLICE COURT—May 28th.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

John Auer was tried and convicted for a brutal assault and battery upon Margaretta Auer, his wife, on the 20th day of May and fined $30 and costs.

David Oldensburg was examined on a charge of stealing 14 cords of wood from Frederick W. Allevory on the 18th of May. Committed for trial. Gave bail in the sum of $300 and was discharged.

Henry Zuck arrested for an assault and battery upon P. Weinbrenner, fined $15 and costs.

The case of the state vs. August Buchlke, was settled; deft paying costs.

The case of the state vs. James Jordan was dismissed. The defendant was a drayman, and retained by force some baggage which he had on his dray, and on which the cartage was not paid, and in the melee striking the complainant.

Promenade Concerts.—The first of this series of Concerts is to be given to subscribers at Young's Hall to-morrow evening. We hope to see them well attended and the enterprising projector liberally patronized. The price of tickets is certainly moderate and the quality of the entertainment excellent.

Concert.—It will be seen from our advertising columns that Mr. Collins, the well-known Irish Comedian and Vocalist, will give his promised entertainment at Young's Hall, on Thursday evening next.

Handsome Store.—Messrs. Shoyer & Co., have *just* completed and moved into one of the best constructed and handsomest stores which the enterprise of the last twelve months has added to our city. It is on East Water street, and is the north building in the block of eleven which occupy a portion of the site of the old U. S. Hotel block, burned last August. It stands 20 feet by 90, and is 4 stories in height, of brick, with iron window frames and caps from Decker & Seville's foundry, in this city. John Rycroft is the mason, and the Babcocks the carpenters. The front is quite handsome, and the windows of the first story of plate glass, costing $600. Messrs. S. Shoyer & Co. occupy the first floor, which is elegantly fitted up, with their retail clothing establishment, and the upper stories are filled or to be filled with a large stock of goods in the same *line, for wholesaling*, by Messrs. E. M. Shoyer & Co.

When it is remembered that this firm lost by the fire in August last a large stock of goods—$18,400 being insured, but in Companies which failed, so that they did not recover one cent—we cannot but admire the indomitable energy which has given them this handsome store, which we notice above. We learn also that the same firm intend to erect this year two more fire-proof stores, with iron fronts, at Nos. 188 and 190 East Water Street.

National Portrait Gallery—History of the Indians.—Mr. G. Laurie, agent for the publishers, is now canvassing our city for subscriptions to the above valuable works. The National Portrait Gallery is published in four volumes on fine white paper, and large clear type. The engravings are remarkably well executed and are copied *from recognized portraits*. Each picture is accompanied by a well-written biographical sketch. The Indian Gallery includes biographical sketches and anecdotes of the principal Indian Chiefs and Tribes of North America, with one hundred and twenty handsomely colored portraits, from the Indian Gallery at Washington; compiled by Col. J. L. McKenney, late of the Indian Department, and John Hall, Esq., of Cincinnati. Both of these are valuable works, and got up in the best style of the typographical art.

Dry Weather.—The weather continues cool and dry. We have had nearly three weeks of easterly winds, and cloudless skies, and the whole State is suffering, more or less, from drought.—Rain is ardently desired by our Farmers, who begin to fear that unless it comes soon their parched fields will yield but scant returns.

Cricket.—The Milwaukee Cricket Club meet on their grounds, north side of Spring St., on the hill, to-morrow afternoon, for practice. A full attendance of the old members and of all others desirous of joining the club, is requested.

Blackwood for May.—We are indebted to Archibald Wilson, 175 East Water Street, for an early copy of Leonard, Scott & Co's. republication of Blackwood for May. It is an unusually interesting number. The leading articles are: I. The Length of Human Life. II. Zaide, a Romance—part VI.—a charming story. III. Poetry of the War. IV. The Campaigns of a French Hussar—an admirable sketch. V. Modern Novelists—a slashing review of the prominent novels and novelists, English and American, of the last five or six years. VI. Notes on Canada—part 2. VII. The *Royal Scottish Academy*. VIII. The Cold Shade. IX. The story of the Campaign—part 6.

Scott & Co. furnish Blackwood to subscribers at $3 per annum, or with any of the Reviews at $5.

Harper for June.—The June number of Harper's popular Magazine is already forthcoming at our bookstores, and we are indebted to Mr. E. C. Arnold, East Water St., for an early copy. Among its contents are "the history and mystery of tobacco"; "California thro' English eyes"; Sketches in Brazil"; four more chapters of Thackeray's "Newcomes"; "a journey thro' China"; several clever stories, and the usual editor's table, monthly record of events, literary notices, comicalities, original and selected, and fashions for June.

☞ The Sheboygan *Times* of Saturday tells of some enterprizing citizens of that burgh who are about erecting a first-class Hotel there. When they have done this good work for Sheboygan we should like to borrow these gentlemen, for a few months, and get them to do as much for Milwaukee.

Rail Road Laborers.—Messrs. A. Graham & Co., contractors on the Wisconsin Central Rail Road, landed here yesterday from the steamer *Globe*, about 150 horses and carts and 150 laborers, who are to go to work at once on the Central Rail Road, beginning at Elkhorn, Walworth County.

☞ Rooney has another sale of Damaged Goods at his Auction Rooms this morning, to which he invites attention.

New Firm.—We understand that Mr. Bell, (late of Bell & Button) and Mr. W. Bean, have leased one half of the large warehouse of W. B. Alvord, together with lots adjoining, and intend to offer their services soon to the public, as forwarders and commission merchants. A steam elevating engine will be put into the warehouse at once. The yard adjoining will be used for *dealing in coal, and in the iron from* the Dodge County mines, which latter will very soon become a large item in our exports.

Accommodation for Reporters.—The Reporters of the city papers ought to feel under many obligations to the City Clerk for the accommodations furnished them for reporting the proceedings of the Common Council. A centre table, with three comfortable cane seated easy chairs, with inkstand, pens, stationery, &c., and *spittoon*, comprise the improvements; the table being placed *within* the "sacred circle." We remember to have reported in a room in the same building, when the table, a second-hand one at that, was placed *outside* the "sacred circle."

A handsome addition has also been made to the Mayor's seat, the window at his back being elegantly draped with crimson and black damask satin curtains, with gilt scroll above, and handsome cord and tassels. Upon the whole, the Common Council Room looks exceedingly comfortable.

Common Council.—The Common Council last evening received a communication concerning putting up sign-boards with the names of the streets, and an invitation to attend the Fire Department Review.

They then took up the Harbor contract question, and were busily engaged upon it when we went to press. The only important idea elicited up to that time was on a "rough guess" by the City Attorney, that at the present rate of progress the work would be done in 18 or 20 years! Ald. Powers has good pluck, and we hope that enough will stand by him to probe this matter to the bottom. Count us in, gentlemen!

Hollow Brick.—Our ingenious friend A. J. Langworthy, of the Wisconsin Iron Works, has been getting up a machine for the making of these brick, and advertises that it may be seen to-day. We can tell more about it to-morrow.

Nursery Garden for Sale.—Wall notifies the public of a great chance for a bargain in this way. Look at it.

Auction.—Crampton sells at auction to-day a lot of furniture and bedding. Such is man that he cannot do without them.

City Maps.—Mr. I. A. Lapham has got out a new edition of his map of Milwaukee, with all the additions up to the present time. Copies can be obtained at the city bookstores, or from Mr. L. himself.

☞ The propeller *Allegany*, Capt. Curtis, of the A. T. Co's. line, arrived from Buffalo yesterday, with 275 tons merchandise for this port, having landed 40 tons at Sheboygan and 15 tons at Port Washington. She has made so quick a trip as to get here before her bills of lading; consequently we are unable to give her cargo.

☞ The steamer *Pacific* arrived from Chicago yesterday afternoon, with 200 passengers, 29 horses, and a small quantity of freight.

MARINE INTELLIGENCE.

The schooner *Melrose*, Captain Becker, arrived here last night from Milwaukee with 12,300 bus wheat to S. J. Holley. The *Melrose* cleared from this port the latter part of April with a cargo of dressed lumber for Milwaukee, and has made the trip round ahead of any other vessel bound down which wintered at Chicago and Milwaukee.—*Oswego Palladium.*

Collision on Lake Huron.—The schooners Hurricane and brig Tuscarora came in collision yesterday on Lake Huron. The Hurricane was considerably damaged, though we could not learn to what extent. She was towed into the river by the schooners Fulton and Challenge. There was some water in her hold. Her cargo of grain will be somewhat damaged.—*Detroit Tribune.*

Last night the following vessels passed down the river: Schooners Maple Leaf, Thornton and May Queen, and this morning, schooners Mason, Crevola, Boers, Montezuma, Sebastopol, Reindeer, Carrington, Collins, Young America, Challenge and Fulton.—*ib.* 25th.

The past week has been marked by great activity in all departments of business. The receipts of merchandise, lumber, &c., by lake have been large, and the receipts of produce by railroad and by teams, greatly beyond those of any preceding week this season. The shipments also have run up to a high figure, and our forwarders have sent off produce to the eastward amounting to *over half a million* of dollars, exceeding, we think, the shipments of any previous week in the history of our city. And there is more yet to go forward. The receipts of flour and wheat from the country are still liberal, and there are no present signs of falling off.

Rain is very much wanted for the crops, none having fallen in this region and west of us for nearly three weeks, except a slight shower a week ago yesterday, although the country, both north and south of us, has been more favored. The growing crops are now suffering very much for the want of moisture, as we have been entirely left out in the allotment of spring rains, and it is reasonable to fear great damage, unless the needed sustenance for the earth come shortly.

We have noticed during the week sales as follows, which include none of the daily transactions at depot:

23d—27000 bus wheat from store at 165 and 10,000 free on board at 1,62½.

23d—1000 bbls No 1 flour 8,37½—17,000 bus wheat at 1,66, free on board.

24th—200 bbls Delavan flour 8,25, 200 White Creek 8,50, 500 Forest City 8,37½—10,000 bus wheat, 185, delivered in Buffalo.

25th—200 bbls Eagle extra (country) flour 8,62½, and 1000 do at 8,60—400 bbls prime pork 12 75,—200 do mess at 16,00—4000 bus spring wheat 1,65, 10,000 do delivered in Buffalo at 1,87.

26th—400 bbls No 1 flour 8,50—10,000 bus corn delivered in Buffalo, 95, and 15,000 do in July at 93.

Flour—*during* the week has advanced about 25c per bbl, with sales from day to day as above, and yesterday, 300 bbls Watertown No. 1 sold at 8,50, and 500 bbls Cayuga at 8,50. We advance our quotations in the table, though there is great uncertainty as to how long present prices will stand. We hear of 2000 bbls Magnolia No. 1, selling in New York at $10 50; and such returns, together with advices of the reshipment to Canada of a large amount of flour which had started for New York, make holders quite firm.

Wheat—Large receipts and an active business all thro' the week, with an advance of about 10c per bushel on spring, winter not partaking of the advance in any great degree, as the spring is excellent, and nearly as good for flouring. About 100,000 bus has been received during the week from the country. Spring yesterday sold freely at depot, at 1,66a1,68; winter brought 1,75a1,80.

Rye continues in good demand at 1,12½a1,14, but the receipts are very light, and as these prices have ruled for some time, the probability is that the amount in farmers' hands is but small.

Barley—very dull, and with small receipts our quotations are only nominal at 87a90.

Corn—receipts slightly improved, but not sufficient to tempt dealers to operate, as there are no large lots to handle. With increased receipts, corn would bring 77a78, but as it is, the best figures are 73a76.

Oats—little doing—dull at 48a50c.

Provisions and Beef Cattle have advanced, and we alter our figures accordingly.

Pig Iron—we reduce our quotation of Wisconsin pig iron, from Dodge Co. to $35,00 per ton. Arrangements are being made for bringing greater quantities into market, and the business is destined to increase rapidly.

Bar Iron—there is a reduction in some qualities.

Hides have advanced somewhat, as see our table.

Lumber—The receipts up to date are double those of last year, but the demand increases with equal rapidity, and we have no change to make in our quotations. The market has been greatly improved by the receipt of a large quantity of seasoned stuff—seven cargoes of it to J L McVicker & Co. This was much needed, and is sold at about $3,00 per M above ordinary lumber.

Wool—Thus far but little has been done. The few small lots arriving, have been sold within the range of our quotations—20a30—but there is not yet enough doing to establish rates for the different kinds. The opinion seems to be *gaining* ground that prices will *improve*, tho' no such figures are expected as those of year before last.

Tolls on the Sault Canal.—The Detroit *Democrat* gives the following statement as to the tolls to be charged upon vessels:

> The present State tariff of tolls, is fixed at a minimum of four cents per ton, measurement, which would give, on an ordinary schooner, from $10 to $15; on a brig $17 50 to $20; on large propellers $30, and on side wheel steamers from $40 to $50. At the rate of one per day, which is certainly as much as there will be to pass for this year and next, this would not amount to more than an average of $25 per day, which will be insufficient for salaries and pay of men, to say nothing of repairs.
>
> The means of getting boats and propellers through the Canal, is of course by the use of their wheels, but sail vessels will require to be towed, and for that purpose horses will be required, the expense of towage falling, of course, upon the vessels. A wide and handsome tow path has been made upon the right bank of the work, and a corresponding heel-path upon the left bank.

A Desirable Farm for Sale!
CRUMMEY'S MODEL FARM,
IN THE TOWN OF
Summit, Waterville, Waukesha Co.

THIS FARM RUNS INTO THE CLEAR and still pure Waters of Lake Nemahbin. A hundred rods from the House a Daily Mail Stage passes every day. It is situated between the Milwaukee & Mississippi and the Milwaukee & Watertown Railroads. It is five miles from the Depot of the former and seven from the latter. Three and a half miles from Nashotah Mission and Delafield and twenty five miles from Milwaukee. There is a splendid Spring of Water running by the farm. On the farm is a beautiful Lake well stocked with Fish. The farm contains 200 acres, of which all is under a high state of cultivation. 110 acres in timothy and Clover. The land is well watered by the same Spring. The land is 130 acres, and is enclosed with good fences. The farm is divided into fields of 20 acres each, and is one of the best watered farms in the State.

On the farm there is a SPLENDID COTTAGE DWELLING HOUSE, containing two large Parlors, a large Sitting Room, large Dining Room and Kitchen, a good Cellar and Cistern, a good well of water with a chain pump, 8 chambers and a family room, besides there is a lot of other conveniences.

The grounds in front around the House are beautifully laid out with Shrubbery, Ornamental Trees and Fruit of the choicest kinds. A large Wash House, Poultry house, Wood shed, &c. A fine large vegetable garden with all kinds of Currants, Gooseberries, Raspberries, and 20 bearing Grape Vines of the choicest kinds.

On the farm is an ORCHARD of 120 trees, covering 20 acres, of Apple, Pear, Peach, Plum, Cherry and Quince, most of which have been bearing the last two years.

On the farm is a large barn 60 by 40, and a granary, a stable, which will accommodate 20 head of horses, a stabling for 50 head of horned cattle, with shed, pens, &c. Sheep shed to accommodate 1000 head of sheep. Hay and stable buildings, two stories high, with chain pump in the barn yard to water stock in winter. A large granary 40 by 30 with hog pens and smoke house and a tool shop, ice house &c.

There is also a boat and Fish Pond stored with a full set of seine. There has been a great outlay to improve and make this the best farm in the West. It must be seen to be appreciated. The stock and farm will be sold together or separate.

For further information, terms &c. apply to the subscriber on the premises, or by mail to Waterville, Waukesha Co., or to D. G. POWER, Real Estate Agent, Milwaukee.

FOR SALE.

A VERY DESIRABLE LAKE FARM, EMbracing one of the most delightful country residences in Wisconsin, 27 miles from Milwaukee, on the Milwaukee & Watertown Railroad and Plank Road.

The subscriber offers at private sale, HIGHLAND, the well known farm, on which he now resides, situated about two miles from the Village of Hartland, Waukesha Co., and containing about 500 acres, 300 of which are under cultivation, well fenced, and divided into convenient fields.

This body of land is unsurpassed for richness and productiveness of soil, and for beauty of scenery and location, acknowledged to be one of the most desirable residences in the State. It is bounded upon the West to a large extent by Pine Lake, one of the largest and most beautiful of our inland Lakes, giving it superior advantages for water power and boating, and the Lake abounds with fish and game in great variety.

Situated upon the Milwaukee & Watertown Rail and Plank Roads, and within a short walk of Pine Lake Station and Hartland Depot, it has easy and direct communication with Milwaukee affording ready market for all kinds of produce, besides good stores and grist mills in the neighboring villages of Delafield, Hartland and Oconomowoc.

The Nashotah Theological Seminary is within 2 miles and church and schools convenient. The land is in a high state of cultivation, has always been manured with cropping a large portion has been seeded down, and it admirably possesses all the requisites for a good sheep and stock farm.

The improvements consist of a good Frame Dwelling House, with well and good water attached, Frame Tenant House, a large Barn, 40x60, Tool House, Cattle Shed, &c. Also a young and thrifty Apple Orchard upon the premises, with abundance of Strawberries and Raspberries. Possession given at an early day if desirable.

For further particulars apply to GEO. R. McLANE, on the premises, or by mail to Pine Lake P. O., Waukesha Co., Wis., or to D. G. POWER,
Real Estate Agent, Milwaukee, Wis.

PIANO FORTES
—AT—
GREAT BARGAINS!
No. 11, Spring Street.

I INFORM THE PUBLIC OF MILWAUKEE AND vicinity that I will sell for one month, all the Pianos on hand, at

Boston Wholesale Prices!

Those who want to secure a GOOD TONED, CHEAP and WARRANTED PIANO FORTE, will find it to their interest to call early. I will sell elegant 6¾ octave, Rosewood, round cornered Piano Fortes at the

Extreme Low Price of $225 apiece.

These Pianos are all with the celebrated Patent American Action, manufactured by George Hews, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London and flattering testimonials from the profession, residents at Boston and elsewhere, among which is the following:

The American Action Piano at the Great London Fair.
BOSTON, August 14, 1852.

The undersigned, who were officially associated with the *Great Exhibition* in London, are happy to bear testimony to the commendations bestowed on the instrument manufactured by our townsman, Mr. George Hews, by gentlemen capable of appreciating both the tone of a Piano, as well as the external finish and elegance of workmanship. The unrivalled Pianist, THALBERG, who was on the musical jury, pronounced it one of the *sweetest* as well as *most perfect toned instruments* in the exhibition.
EDWARD RIDDLE, United States Commissioner to London Exhibition of 1851.
J. V. C. SMITH, M. D.

☞ Pianos to let, old Pianos taken in exchange, and liberal prices allowed. Pianos tuned and repaired. Orders for tuning Pianos, directed to Box 949, Post Office, will be promptly attended to.

NATIONAL LOAN FUND
LIFE ASSURANCE SOCIETY,
LONDON.

CAPITAL, - - - $2,500,000.
Guarantee Fund, $100,000, *Deposited with the Comptroller of the State of New York.*

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, while it in no way interferes with, or undervalues these important institutions, has claims which no other system of insurance can have. Human existence must on consideration, enjoy a much higher estimation than worldly property.

While the representative of a family lives, (although, through neglect to insure his *property*, he becomes bankrupt,) he supports his family; but at his *death*, dies also their means of support, unless he has saved them *from want* by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comfort during life.

If young, the annual payment will be light, and if insured with profits, the policy will be constantly growing more valuable, though the *premium* is not increased.

Clergymen and others who have a stated and regular income, *should insure*, well knowing that at their death their families may be left destitute.

Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issues, *should insure*.

The farmer who has still a mortgage on his farm, *should insure*, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

Latest from Virginia.

NEW YORK, May 26, 2 P. M.

Despatches from Washington claim the election of Wise by from 5,000 to 10,000 majority.

From papers before us we cannot arrive at any such result. Indeed it is impossible from the complicated nature of the returns thus far to say which candidate has succeeded.

It is generally conceded, however, that Wise's prospects are decidedly in the ascendant, judging from the counties heard from.

In 71 counties Wise is ahead of Flournoy 7568. The remainder of the State gave a democratic majority of about 6000 in 1853.

6 P. M.

The returns now show the majorities of 11,047 for Wise and 9363 for Flournoy, leaving Wise 1684 ahead.

BALTIMORE, May 26, 5 P. M.

It is reported that Campbell (?) county gives Flournoy 1600 majority, a gain of 1200. The rumor needs confirmation. A dispatch from Faulkner, in the 8th district, says he is elected to Congress by 400 majority.

A GREAT SPEECH.—Hooper, of the Montgomery Mail, gives the following report of the greatest speech he ever heard:

A fellow was indicted in the old Ninth, when Tom G——t was Solicitor, for gambling, to-wit: Playing "short cards," at a certain locality known as Frog Level. Col. N—— defended him, and contended before the jury, that tho' the State's evidence "tended" to show that his client, with a bottle of liquor in his pocket, accompanied the crowd, who, it was shown, did actually play, yet it never did, with absolute certainty, locate him as one of the players. Said he, by way of peroration:

"Gentlemen of the Jury, the witnesses have told you that Peter Wyatt was thar, and a playin, for he noticed *his* hand, and it was a *full on Queens*.

Harry Snow was thar, and *he* was a playin, for *he* hilt *too little par!*

"William Upson was thar, and *he* played, cause witness noticed, in particular, that *he* had nothin' but an ace!

"Bill Connor was thar, and *he* played, gentlemen, for he had the bully hand—four high-heel'd Jacks!

"*But* gentlemen, when I come to ask him about Abraham Pitken—my client's hand, what did he say, gentlemen? Why nothin' gentlemen, except that if Abe hilt any hand, he disremembered what was in it! And now, gentlemen of the jury, because *my* client was seen goin down to Frog Level, with a bottle of liquor in *his* pocket, and the witness can't remember as he hilt any hand at all, when bully hands was out, and him the best player in the crowd—is that—is *that*—I say, gentlemen of the jury, is that any reason that my client was guilty of the crime of *Gamboling?*"

It is almost needless to say that the jury saw the *non sequitur*, and acquitted the defendant.

THE OPERA.—To our notion the Musical Society of Milwaukee excels most of the companies imported from Europe to make a business of the Opera in this country. We have heard what was said to be the best troupe that ever sang in New York, and were no better pleased than we were in listening to the delicious strains of the Milwaukee Musical Society.—[Racine Dem.

LUCID.—The *Wisconsin*, in giving a description of a newly invented rifle, thus describes its wonderful shooting powers:

A person will more fully appreciate the destructive rage of this wonderful weapon, when we remark that with a Minie rifle on Spring St. Bridge you can kill a person on the hill where Mr. Rogers' house is situated.

That's nothing,—we have killed a Turkey with a common rifle, from Third street, clear over to old Rogers' wheat-field.—[La Crosse Democrat.

DROUTH.—We have had but little rain here for the past 6 weeks. Vegetation is languishing very much for the want of a few warm showers.—[Stevens Point Pinery, May 24.

☞ The Pontiac *Jacksonian* asserts authoritatively, that the cars on the Detroit and Milwaukee Railway will run as far as Corunna, Shiawassee Co., by the first of next October.

WHEN IT DOES, IT DOES.—It don't rain very often this spring, or at least it has not so far; but when it does do it, it does it with a will.—Early on Wednesday morning the flood gates of the Heavens were opened for a while, and the way the rain did come down was well worth the hearing. We rather think cisterns got some little water just then.—[Racine Dem., 26th.

REAL ESTATE SALE.—We learn that Mr. Peter Sharp has just purchased of Mr. J. L. Moore of this city, his farm of 100 acres at Elkhart Lake, some 20 miles west, for $4000. Improved farms in the central and southern portions of the county have advanced rapidly within the last year, and frequently bring from 25 to $30 per acre.—[Sheboygan Times.

☞ Mr. Harrison Reed of Menasha was in town yesterday, just returning from a visit to La Crosse. He said he met, between La Crosse and Dalton, over 100 emigrant wagons—families moving with their flocks and herds into Northwestern Wisconsin and Minnesota. The rush is unprecedented.—[Madison Journal.

PROCLAMATION
To the Sick.

BRING hither "the poor, the halt, the lame and the blind," if you would have them healed of their infirmities. We boldly and fearlessly assert that the Mustang Liniment will positively cure almost all. Let any one who is afflicted with that most painful complaint try it thoroughly according to directions, and if it fails to be cured we will give them their money back. What more can we say? It will also cure the Piles. Let it be tried—and all were cured. Bruises, sprains and Eruptions fade away as if touched with the magician's wand. Its application to Burns or Scalds is like oil on troubled waters. The tempest of pain and anguish is soon stilled, and the patient is hushed to a peaceful slumber. "There is a balm in every wound," and that balm is the Mustang Liniment. Externally or internally, the medicine keep it at hand. If your horse is lame, or if they are crippled, galled or sprained, use the Mustang Liniment. In a word it is

A BALM FOR EVERY WOUND, A CURE FOR

Rheumatism, Scald Head, Gout, Neuralgia, Caked Breasts, Stiff Joints, Lumbago, Sore Nipples, Bruises, Sprains, Sore Necks, Cuts, Salt Rheum, Burns, Chafes, Tetter, healing all Piles, Ulcers, Spavin, Splint, Ring Bone, Sweeny, Foul Heel, Scratches, sores, Hard Lumps or Tumors, and all kinds of

Pains or Inflamation in Man or Beast.

RELIABLE EVIDENCE.

BLOOMFIELD, Mo., January 15.

Messrs. A. G. BRAGG & Co.,

DEAR SIRS, Allow me to add my testimony to the excellent properties of your Mustang Liniment, in all cases of burns or scalds. I had a son badly burned in his face and hands by powder. It was expected that he would be badly scarred for life. We applied the Mustang with raw cotton and no thing else, and in ten days he was entirely well and left no scar, or mark whatever. My wife used it in a case of scald from boiling hot tallow, and it had the same good effect.

Yours, truly, D. B. MILLER, County Judge.

RUSSELL COUNTY, Ala., Feb. 1, 1855.

For the benefit of the afflicted, I feel it my duty to publish the remarkable cures that have been effected in my family by the use of the Mustang Liniment. A negress of mine had what is called a Bone Felon, or Whitlow on her finger. The Inflammation had been so extreme, that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life, appeared to be to have it cut off. As her general health was very delicate, the Physician advised us to try the Mustang Liniment a few days, till she could be taken to a surgeon in Columbus, as it could do no harm, and might prevent mortification. To the astonishment of the doctor and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was also badly burned; the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied, and nothing else was used. The relief it afforded was almost beyond belief, but a short time elapsed ere the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation. JAS. LOPHILIP

NOTHING NEW—BUT FRESH FACTS.—It would be nothing new to say that the Mustang Liniment has been or was now more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts, and all manner of sores, as well as in curing swellings, pains or lameness in the back, side or limbs, than rheumatism, any other remedy. These are facts that millions of persons know from having used it. We say millions, and base the assertion on the fact that fifteen millions of bottles have been used and never heard a complaint against it, where it has been used as directed and used thoroughly. We deem it necessary occasionally to remind the people of these facts, to induce all to try it who may never have had an occasion to use it. One trial is all we ask the most incredulous—and a trial will only cost 25 cents.

PRICES.—It is put up in bottles of all sizes, and sold at 25 cents, 50 cents, and $1 per bottle. The fifty cent and one dollar bottles contain three times as much as the twenty five cent size in proportion to their cost, so the large bottles are the cheapest.

RHODES'
FEVER AND AGUE CURE,
OR,
Nature's Infallible Specific

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chill Fever, Dumb Ague, General Debility, Night Sweats and all forms of disease which have a common origin in Malaria or Miasma. This subtle atmospheric poison which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists—North, South, East or West—and will everywhere yield to this newly discovered antidote, which is claimed to be the only TRUE DISCOVERY IN MEDICINE EVER MADE.

This specific is so harmless that it may be taken by persons of every age, sex or condition, and substitutes for one disease others still worse, as is often the result in the treatment by Quinine, Mercury, Arsenic and other poisonous or deleterious drugs, not a particle of which is admitted into this preparation.

The proprietor distinctly claims three distinct results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveller in the most sickly or swampy localities, from Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all distressing results of Bilious or Ague diseases, such as general debility, night sweats, &c. The patient at once regains his appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laborers, by adopting it as a preventative will be free from Ague or Bilious attacks in that season of the year which is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases; some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade. Trade circulars forwarded on application, and the article will be consigned on liberal terms to responsible parties in every section of the country.

PIANO FORTES

—AT—

GREAT BARGAINS!

No. 11, Spring Street.

I INFORM THE PUBLIC OF MILWAUKEE AND vicinity that I will sell for one month, all the Pianos on hand, at

Boston Wholesale Prices!

Those who want to secure a GOOD TONED, CHEAP and WARRANTED PIANO FORTE, will find it to their interest to call early. I will sell elegant 6⅔ octave, Rosewood, round cornered Piano Fortes at the

Extreme Low Price of $225 apiece.

These Pianos are all with the celebrated Patent American Action, manufactured by George Hews, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which is the following:

The American Action Piano at the Great London Fair
Boston, August 14, 1852

The undersigned, who were officially associated with the *Great Exhibition* in London, are happy to bear testimony to the commendations bestowed on the instrument manufactured by our townsman Mr George Hews, by gentlemen capable of appreciating both the tone of a Piano, as well as its external finish and elegance of workmanship. The unrivalled Pianist, Thalberg, who was on the musical jury, pronounced it one of the *sweetest as well as most perfect toned instruments* in the exhibition.

EDWARD RIDDLE, United States Commissioner to London Exhibition of 1851
J. V. C. SMITH, M. D.

☞ Pianos to let, old Pianos taken in exchange, and liberal prices allowed. Pianos tuned and repaired. Orders for tuning Pianos, directed to Box 918, Post Office, will be promptly attended to.

NATIONAL LOAN FUND

LIFE ASSURANCE SOCIETY,

LONDON.

CAPITAL, - - - $2,500,000,

Guarantee Fund, $100,000, *Deposited with the Comptroller of the State of New York.*

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, while it in no way interferes with, or undervalues these important institutions, has claims which no other system of insurance can have. Human existence must on consideration, enjoy a much higher estimate than worldly property.

While the representative of a family lives, (although, through neglect to insure his *property*, he becomes bankrupt,) he supports his family, but at his *death*, dies also their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comforts during life.

If young, the annual payment will be light, and if insured with profits, the policy will be constantly growing more valuable, though the *premium* is not increased.

Clergymen and others who have a stated and regular income, *should insure*, well knowing that at their death their families may be left destitute.

Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issues, *should insure*.

The farmer who has still a mortgage on his farm, *should insure*, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

Latest from Virginia.

New York May 26 2 P M

Despatches from Washington claim the election of Wise by from 5,000 to 10,000 majority.

From papers before us we cannot arrive at any such result. Indeed it is impossible from the complicated nature of the returns thus far to say which candidate has succeeded.

It is generally conceded, however, that Wise's prospects are decidedly in the ascendant judging from the counties heard from.

In 71 counties Wise is ahead of Flourney 7568. The remainder of the State gave a democratic majority of about 6000 in 1853.

6 P M

The returns now show the majorities of 11,047 for Wise and 9363 for Flourney, leaving Wise 1684 ahead.

Baltimore, May 26 5 P M

It is reported that Campbell (?) county gives Flourney 1600 majority, a gain of 1200. The rumor needs confirmation. A dispatch from Faulkner, in the 8th district, says he is elected to Congress by 400 majority.

A GREAT SPEECH.—Hooper, of the Montgomery Mail, gives the following report of the greatest speech he ever heard:

A fellow was indicted in the old Ninth, when Tom G——t was Solicitor, for gambling, to-wit: Playing "short cards," at a certain locality known as Frog Level. Col N—— defended him, and contended before the jury, that tho' the State's evidence "tended" to show that his client, with a bottle of liquor in his pocket, accompanied the crowd, who, it was shown, did actually play, yet it never did, with absolute certainty, locate him as one of the players. Said he, by way of peroration:

"Gentlemen of the Jury: the witnesses have told you that Peter Wyatt was thar, and a playin, for he noticed *his* hand, and it was a *full on Queens*.

"Harry Snow was thar, and *he* was a playin, for *he* helt *too little per !*

"William Upson was thar, and *he* played, cause witness noticed, in particular, that *he* had nothin' but an ace!

"Bill Connor was thar, and *he* played, gentlemen, for he had the bully hand—*four high-heel'd Jacks!*

"*But* gentlemen, when I come to ask him about Abraham Pitken—my client's hand, what did he say gentlemen? Why nothin' gentlemen, except that if Abe helt any hand, he disremembered what was in it! And now, gentlemen of the jury, because *my* client was seen goin down to Frog Level, with a bottle of liquor in *his* pocket, and the witness can't remember as he helt any hand at all, when bully hands was out, and him the best player in the crowd—is that—is *that*—I say, gentlemen of the jury, is that any reason that my client was guilty of the crime of *Gamboling?*"

It is almost needless to say that the jury saw the *non sequitur*, and acquitted the defendant.

THE OPERA.—To our notion the Musical Society of Milwaukee excels most of the companies imported from Europe to make a business of the Opera in this country. We have heard what was said to be the best troupe that ever sang in New York, and were no better pleased than we were in listening to the delicious strains of the Milwaukee Musical Society.—[Racine Dem.

LUCID.—The *Wisconsin*, in giving a description of a newly invented rifle, thus describes its wonderful shooting powers:

A person will more fully appreciate the destructive range of this wonderful weapon, when we remark that with a Minie rifle on Spring St Bridge you can kill a person on the hill where Mr Rogers' house is situated.

That's nothing,—we have killed a Turkey with a common rifle, from Third street, clear over to old Rogers wheat-field.—[La Crosse Democrat.

DROUTH.—We have had but little rain here for the past 8 weeks. Vegetation is languishing very much for the want of a few warm showers.—[Stevens Point Pinery, May 24.

☞ The Pontiac *Jacksonian* asserts authoritatively, that the cars on the Detroit and Milwaukee Railway will run as far as Corunna, Shiawassee Co., by the first of next October.

WHEN IT DOES, IT DOES.—It don't rain very often this spring, or at least it has not so far but when it does do it, it does it with a will.—Early on Wednesday morning the flood gates of the Heavens were opened for a while, and the way the rain did come down was well worth the hearing. We rather think cisterns got some little water just then.—[Racine Dem., 28 h.

REAL ESTATE SALE.—We learn that Mr Peter Sharp has just purchased of Mr J. L. Moore of this city, his farm of 100 acres at Elkhart Lake some 20 miles west, for $4000. Improved farms in the central and southern portions of the county have advanced rapidly within the last year, and frequently bring from 25 to $30 per acre.—[Sheboygan Times.

☞ Mr. Harrison Reed of Menasha was in town yesterday, just returning from a visit to La Crosse. He said he met, between La Crosse and Delton, over 100 emigrant wagons—families moving with their flocks and herds into Northwestern Wisconsin and Minnesota. The rush is unprecedented.—[Madison Journal.

Building Lots for Sale

WE are now prepared to sell the lots in block 139 known as the City garden. The lots in this block have twelve years growth of all kinds of fruit trees, shrubbery and vines, and it is the most delightful spot for private residences in the city. There is also on two of the lots a large greenhouse, containing more than sixteen hundred different kinds of plants, with a good dwelling house, well, two cisterns, and every other convenience usually found in a well kept garden. We wish to give those wanting homes of their own and do not wish to build on leased lots, a good chance to buy a homestead that will more than double its value in three years. We will therefore sell the above in one or more lots for one-fourth down, the balance in one, two, and three years, with interest at 8 per cent. Call and see us before buying elsewhere. — MABBETTS & BREED,

DR. C. P. FITCH,

Dentist,

(LATE OF NEW YORK CITY,)

HAS THE PLEASURE OF ANNOUNCING TO THE Citizens of Milwaukee, that he has opened Rooms in the

Law Buildings, Wisconsin Street,

FOR DENTAL OPERATIONS

Dr. F. introduces to this community the New Method of constructing Artificial Dentures on Platinum, called

DR. J. ALLEN'S

Continuous Gum Work,

combining cleanliness, great beauty, with life-like expression, strength, utility, and restoration of the form and contour of the face. This work is unequalled, and stands preeminently first, and will sooner or later take the precedent over the various kinds of Artificial Dentures manufactured in this or any other country. Specimens may be seen at his Room any time during office hours.

After twelve years experience in dental practice, Dr F takes great pleasure in warranting all operations in the mouth, such as Gold Stoppings, Gold Plates, Teeth on Pivots, Teeth regulated, cleansed and extracted, &c.

Strict attention will be paid to all diseases arising from or in any way connected with decayed teeth. Also, counsel given in reference to the management of children's teeth. Advice and counsel given without charge.

Office hours from 9 A. M. to 1 P. M., from 2 to 6 P. M., and from 7 to 9 P. M.

PROCLAMATION

To the Sick.

BRING hither [illegible] poor, the halt, the lame and blind," if you would have them [illegible] cured of their [illegible] infirmities. We [illegible] and [illegible] that the Mustang Liniment will positively cure almost [illegible] one who is afflicted with that most painful complaint [illegible] it thoroughly according to directions [illegible] cured we will give them their money back. What [illegible] can we say? It will also cure the [illegible] tried it—and all were cured. Bruises, [illegible] Eruptions fade away as at touch [illegible] wand. Its application to Burns [illegible] like [illegible] on troubled water. The [illegible] is soon stilled, and the patient is lulled to [illegible] peaceful slumbers. There is a balm [illegible] and that balm is the Mustang Liniment. Every [illegible] sells medicine keeps it for sale. [illegible] horses if they are crippled, galled or sprained, use the Mustang Liniment. In a word, it is

A BALM FOR EVERY WOUND, A CURE FOR
Rheumatism, Scald Head, Gout, Neuralgia, Caked Breast, Stiff Joints, Lumbago, Sore Nipples, Bruises, Sprains, Sore Necks, Cuts, Salt Rheum, Burns, Chafes, Tetter, Scalds, all Piles, Ulcers, Spavin, Splint Ring Bone, Sweeny, Poll Evil, Scratches, Sores, Hard Lumps or Tumors, and all kinds of

Pains or Inflamation in Man or Beast.

RELIABLE EVIDENCE.

BLOOMFIELD, Mo., January 15, [illegible]

Messrs A. G. BRAGG & Co.,

DEAR SIRS, Allow me to add my testimony to the excellent properties of your Mustang Liniment, in all cases of burns or scalds. I had a son badly burned in his face and hands by powder. It was expected that he would be badly scarred for life. We applied the Mustang with raw cotton and no long time, and in ten days he was entirely well and left no scar, or mark whatever. My wife used it in a case of scald from boiling hot tallow and it had the same good effect.

Yours, truly, — D B MILLER, County J[illegible]

RUSSELL COUNTY, Ala., Feb 1, 18[illegible]

For the benefit of the afflicted, I feel it my duty to publish the remarkable cure that have been effected in my family by the use of the Mustang Liniment. A [illegible] of mine had what is called a Bone Felon, or Whitlow on her finger. The inflammation had been so extreme that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life, appeared to be to have it cut off. As her general health was very delicate, the Physician advised us to try the Mustang Liniment a few days, [illegible] to a surgeon to [illegible] as it would [illegible] might prevent mortification. To the astonishment of the doctor and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was badly burned; the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied, and nothing else was used. The relief [illegible] almost beyond belief, but a short time elapsed [illegible] the wounds were perfectly healed. I consider it a valuable remedy, and it should be in every family and on every plantation. — [illegible]

NOTHING NEW—BUT EVER TRUE.—It would be [illegible] to say that the Mustang Liniment had been [illegible] was now more used in the United States than any [illegible] preparation. But it would be true to say that it has [illegible] more uniformly successful in healing, wounds [illegible] burns, [illegible] and all manner of sores, as well as piles, erysipelas, pains or lameness in the back, side or limbs, than rheumatism, any other remedy. These are [illegible] that millions of persons know from having used it. We say millions, and base the assertion on the fact that fifteen millions of Bottles have been used and never [illegible] a complaint against it, where it has been used as directed and used thoroughly. We deem it necessary [illegible] to remind the people of these facts, to induce [illegible] try it who may never have had an occasion to [illegible]. One trial is all we ask the most incredulous—and a trial will only cost 25 cents.

PRICES.—It is put up in bottles of all sizes, and [illegible] at 25 cents, 50 cents, and $1 per bottle. The fifty cent and one dollar bottles contain three times as much as the twenty five cent size in proportion to their cost, [illegible] the large bottles are the cheapest.

FEVER AND AGUE CURE,

OR,

Nature's Infallible Specific

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chill Fever, [illegible] Dumb Ague, General Debility, Night Sweats and all [illegible] forms of disease which have a common origin in Miasm or Miasma. This subtle atmospheric poison which [illegible] certain seasons is unavoidably inhaled at every breath [illegible] the same in character wherever it exists.—North, South, East or West—and will everywhere yield to this newly discovered antidote, which is believed to be the only discovery in medicine ever made.

This specific is so harmless that it may be given to persons of every age, sex or condition, [illegible] substitute for one disease others still worse, as [illegible] result in the treatment by Quinine, Mercury, Arsenic, [illegible] other poisonous or deleterious drugs [illegible] any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveller, even in the most sickly or swampy localities, [illegible] from any Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all distressing results of Billious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to [illegible] appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring [illegible] by adopting it as a preventative will be free from [illegible] Billious attacks in that season of the year which [illegible] it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discount made to the trade.

Trade circulars forwarded on application [illegible] the article will be consigned on liberal terms to [illegible] parties in every section of the country.

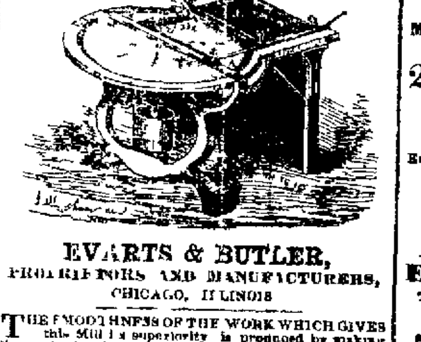
Patent Shingle Mill.



EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,

CHICAGO, ILLINOIS

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority is produced by making the cut in the direction of the fibre of the wood The ease with which wood is worked in that direction gives great speed of execution, and the flexibility of the shingle [illegible] width was relieves the saw, so that it may be ground thin to its edge so as to cut away but little of the wood

The shingles now made with this mill sell in this market *seventy five cents per thousand higher* than any other sawed shingles

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked and not liable to get out of order

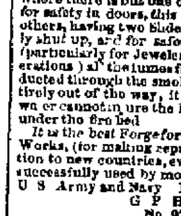
QUEEN'S PATENT



PORTABLE

FORGE

AND

BELLOWS!

THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe

There are six sizes of Blacksmiths Coppersmiths &c Forges and five sizes of Jewelers, Dentists and Chemists

It is compact—the Twier Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening For out door work and for safety in doors, this Forge has great advantages over others, having two Slides by which the Forge can be close ly shut up, and for safety and many purposes in doors, (particularly for Jewelers, Dentists and for chemical operations) all the fumes from charcoal and acids being conducted through the smoke pipe, or when open they are entirely out of the way, it is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for emigration to new countries, ever offered to the public, and are successfully used by most of the steamers, and also by the U S Army and Navy For sale by

3,000 BARRELS OF

WINTER APPLES,

IN WINTER QUARTERS ALL THE TIME, WHICH almost any emergency will bring out, and at reasonable rates, too My Fruit has been selected with great care, and I can assert, without fear of contradiction, that there are none better in market

All orders left with me this week, or at any other time during the winter, will receive prompt attention, as I do not intend to get it so far into winter quarters but that the Almighty Dollar will act as a magnet of sufficient force to draw it out

My Stock of DRIED FRUIT AND NUTS of all kinds, and FISH of every description, is unusually large, of the very best quality.

City and Country Dealers are invited to call and examine my stock and prices, as I am confident I can offer them greater inducements to purchase than any other house in the West.

PATENT MEDICINE

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious diseases Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c &c Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used No person can feel well while a costive habit of body prevails besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms and Bilious derangements They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand An extensive trial of its virtues by Physicians, Professors and Patients has shown results surpassing anything ever known of any medicine Cures have been effected beyond belief, were they not substantiated by persons of such exalted positions and character, as to forbid the suspicion of untruth

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct A A HAYES, Analytical Chemist of Boston and State Assayer of Massachusetts, whose high professional character is endorsed by the —

Hon EDWARD EVERETT, Senator of the United States

ROBERT C WINTHROP, Ex Speaker of the House of Representatives

ABBOTT LAWRENCE Minister Plen to England

JOHN B FITZPATRICK, Catholic Bishop of Boston

Dr J R CHILTON, Practical Chemist of New York City, endorsed by

Hon W L MARCY, Secretary of State

WM B ASTOR, the richest man in America

S. LELAND & Co , Proprietors of the Metropolitan Hotel, and others

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford They are compounded not of the drugs themselves but of the medicinal virtues only of Vegetable remedies extracted by Chemical process in a state of purity, and combined together in such a manner as to insure the best results This system of composition for medicines has been found in Cherry Pectoral and Pills both to produce a more efficient remedy than had hitherto been obtained by any process The reason is perfectly evident. While by the old mode of composition every medicine is burdened with more or less of acrimonious and injurious qualities by this each individual virtue only that is desired for the curative effect, is present All the inert and obnoxious qualities of each substance employed are left behind the curative virtues only being retained Hence it is self evident the effects should prove as they have proved, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he does not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulas by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces If however there should be any one who has not received them, they will be forwarded by mail to his request

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mysteries I have no mysteries

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely, acknowledge their convictions of their intrinsic merits The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known Many eminent Physicians have declared the same thing of my Pills, and even more confidently and are willing to certify that their anticipations were more than realized by their effects upon trial

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach bowels, liver and health, and by correcting wherever they exist such derangements as are the first origin of disease

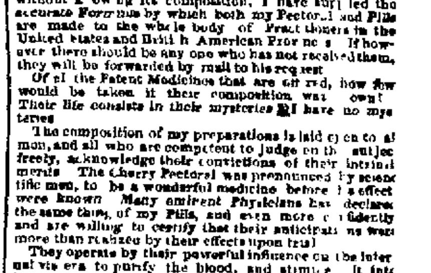
THE AMERICAN'S FRIEND!



HOLLOWAY'S PILLS.

To the Citizens of the United States —

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills [illegible] take this opportunity of stating that my Ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit *your climate, habits, constitutions*, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York

THOMAS HOLLOWAY,

38, Corner of Ann and Nassau Streets, New York

THE BLOOD, LIVER AND BILIOUS COMPLAINT

The Citizens of the Union suffer much from disorders of the Liver and Stomach The fair sex, perhaps the most handsome in the World, at a certain period lose their teeth and good looks while yet in the hey day of life These evils may be effectually remedied by continually keeping the blood pure and the Liver and Stomach in a healthy action, when life will flow smoothly I say fearlessly, that health and life may be prolonged for years beyond the ordinary limits, if Holloway's Pills are taken to purify the blood, in accordance with the directions which accompany each Box

CURE OF WEAKNESS & DEBILITY OF TEN YEARS STANDING

Captain John Johnson of Astor House New York, suffered for ten years from a derangement of the Liver and Stomach, and was so reduced in strength that he never expected to go to sea any more, having tried every known remedy without deriving benefit At last he had recourse to Holloway's Pills, which completely cured him after using them for three months, and he now enjoys the soundest health

These celebrated Pills are wonderfully efficacious in the following complaints:—

Ague	Dropsy	Liver Complaints	Secondary Symptoms
Asthma	Dysentery		Tic Douloureux
Bilious Complaints	Erysipelas	Lumbago	Tumours
	Female Irregularities	Piles	Ulcers
Blotches on the Skin		Rheumatism	Venereal Affections
	Fevers of all kinds	Retention of Urine	
Bowel Complaints			Worms of all kinds
	Fits	Scrofula, or King's Evil	
Colics	Gout		
Constipation of the Bowels	Head ache	Sore Throats	Weakness
	Indigestion	Stone and Gravel	from whatever cause, &c.
Consumption	Inflammation		
Debility	Jaundice

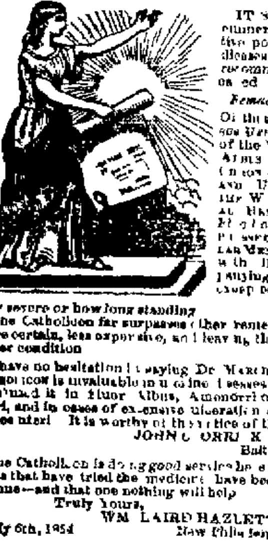
CELEBRATED CATHOLICON,

For the Relief and Cure of Suffering Females.



IT STANDS PRE-eminent for its curative powers in all the diseases for which it is recommended, usually [illegible] as

Of these are Prolapsus Uteri or Falling of the Womb, Fluor Albus or Whites, Chronic Inflammation and Ulceration of the Womb, Incidental Hemorrhage or Flooding, Painful, Suppressed and Irregular Menstruation, &c., with [illegible] accompanying ills (Cancer excepted) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in [illegible] diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of [illegible] and os uteri. It is worthy of the notice of the faculty.

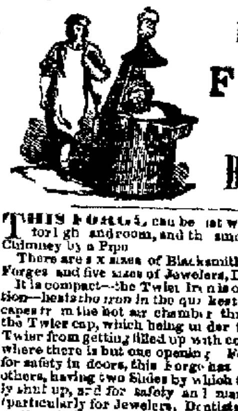
QUEEN'S PATENT



PORTABLE

FORGE

AND

BELLOWS!

THIS FORGE, can be set where most convenient for [illegible] and room, and the smoke conducted to the Chimney by a Pipe

There are six sizes of Blacksmiths, Coppersmiths, &c. Forges and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Twier Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening. For out door work and for safety in doors, this Forge has great advantages over others, having two Slides by which the Forge can be close ly shut up, and for safety and many purposes in doors, (particularly for Jewelers, Dentists and for chemical operations) all the fumes from charcoal and acids being conducted through the smoke pipe, or when open they are entirely out of the way. It is also constructed that fire or water or cannot injure the Bellows, which is in the cylinder under the fire bed

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for emigration to new countries, ever offered to the public, and are successfully used by most of the steamers, and also by the U. S. Army and Navy. For sale by

PATENT MEDICINES

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails, besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors and Patients has shown results surpassing anything ever known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted positions and character, as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct. A. A. HAYES, Analytical Chemist of Boston, and State Assayer of Massachusetts, whose high Professional character is endorsed by the —

Hon. EDWARD EVERETT, Senator of the United States

ROBERT C. WINTHROP, Ex Speaker of the House of Representatives

ABBOTT LAWRENCE, Minister Plen. to England

JOHN B. FITZPATRICK, Catholic Bishop of Boston

Dr. J. R. CHILTON, Practical Chemist of New York City, endorsed by

Hon. W. L. MARCY, Secretary of State

WM. B. ASTOR, the richest man in America

S. LELAND & Co., Proprietors of the Metropolitan Hotel, and others

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies extracted by Chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be forwarded by mail to his request

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mysteries. I have no mysteries

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely, acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing, of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver and health, and by correcting, wherever they exist such derangements as are the first origin of disease

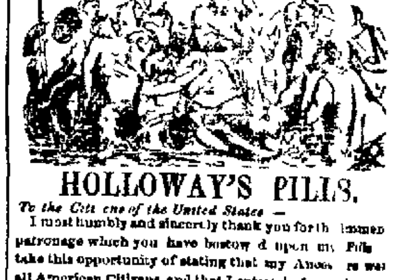
THE AMEICAN'S FRIEND!



HOLLOWAY'S PILLS.

To the Citizens of the United States. —

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my Ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York.

THE BLOOD, LIVER AND BILIOUS COMPLAINT

The Citizens of the Union suffer much from disorders of the Liver and Stomach. The fair sex, perhaps the most handsome in the World, at a certain period lose their teeth and good looks while yet in the hey day of life. These evils may be effectually remedied by continually keeping the blood pure and the Liver and Stomach in a healthy action, when life will flow smoothly. I say fearlessly, that health and life may be prolonged for years beyond the ordinary limits, if Holloway's Pills are taken to purify the blood, in accordance with the directions which accompany each Box

CURE OF WEAKNESS & DEBILITY OF TEN YEARS STANDING

Captain John Johnson of Astor House New York, suffered for ten years from a derangement of the Liver and Stomach, and was so reduced in strength that he never expected to go to sea any more, having tried every known remedy without deriving benefit. At last he had recourse to Holloway's Pills, which completely cured him after using them for three months, and he now enjoys the soundest health

These celebrated Pills are wonderfully efficacious in the following complaints:—

Ague	Dropsy	Liver Complaints	Secondary Symptoms
Asthma	Dysentery	Lumbago	Tic Douloureux
Bilious Complaints	Erysipelas	Piles	Tumours
Blotches on the Skin	Female Irregularities	Rheumatism	Ulcers
Bowel Complaints	Fevers of all kinds	Retention of Urine	Venereal Affections
Colics	Fits	Scrofula, or King's Evil	Worms of all kinds
Constipation of the Bowels	Gout	Sore Throats	Weakness from any cause, &c.
Consumption	Head ache	Stone and Gravel	
Debility	Indigestion		
	Inflammation		
	Jaundice		

Sold at the Establishment of Professor Holloway 38, Corner of Ann and Nassau Streets, New York, also by all respectable Druggists and Dealers in Medicines throughout the United States, in Boxes, at 37½ cents, 87 cents, and $1 50 cents each. To be had Wholesale of the principal Drug Houses in the Union

There is a considerable saving by taking the larger sizes

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box
